August 3, 2011

Dear Student,

Congratulations on your conditional acceptance into the health careers program.

All applicants must complete a successful certified background check prior to full admission to any health careers program. Angelina College will designate the agency selected to complete the certified background screening. The results of the background check will be sent directly to the Health Careers Division Director. All certified background check information will be kept in confidential electronic files and archived as indicated by each program's accrediting agency requirements.

The student will pay the cost of the background check to the designated agency (\$39.00). The background check will be honored for the duration of the student's enrollment in the program if the participating student has not had a break in the enrollment of the program. A break in enrollment is defined as nonattendance of one full semester or more.

This fall semester of 2011, Angelina College is partnering with the designated background check agency (Verified Credentials) to also manage other program requirements. Students will complete background report and submit immunization history, medical information, CPR certification and other admission checklist information to the same site.

The submission of the immunization history, medical information, CPR certification and other admission information will be done this semester as part of a beta testing trial between Angelina College Health Careers Division and Verified Credentials. Therefore at this time the student will not be charged an extra fee for the tracking of the other admission information; but all conditionally accepted students must provide to Verified Credential all information requested in the appropriate format.

To access Verified Credentials and complete the background check and submit immunization history, medical information, CPR certification etc... please use the following website:
