This handbook is reviewed annually and revised as indicated. The provisions of this handbook do not constitute an irrevocable contract between any applicant or student and the Angelina College Nursing Program (ACNP). The ACNP is not responsible for any misrepresentation of its requirements or provisions that might arise as result of errors occurring in the preparation of this handbook. The ACNP does not guarantee admission for the licensure examination.

Angelina College Nursing Program is part of the Health Careers Division, which is made up of six programs: Nursing, Radiography, Emergency Medical Services, Respiratory Care, Pharmacy Technology, Diagnostic Medical Sonography, and Surgical Technology. (Revised 5/09)

Angelina College does not discriminate on the basis of race, color, creed, sex, age, national origin, or disability.

PREFACE

As a Nursing student, you are about to embark on a career that is both challenging and rewarding. The standards that the Nursing Profession sets for itself are high. To help you learn about and adjust to these standards you will familiarize yourself with the policies and guidelines in this Nursing Student Handbook.

Additional policies are also located in the Angelina College Catalog, the College Student Handbook, and each course syllabus.

A student failing to comply with these standards and policies may be dismissed from the Nursing program. The faculty reserves the right to recommend or require withdrawal from the nursing program for serious and/or continual violations.

Students should be aware that classroom, lab, and/or clinical hours vary according to the individual programs. Scheduled hours may include day, evening, and/or weekend hours. Student may be required to travel to clinical facilities that are out of town in order to ensure adequate exposure and to provide a sound clinical experience.

Section I – Professional Guidelines

Program Mission

In accordance with the mission of Angelina College, the Nursing Program provides a quality nursing education in response to the unique needs and ethnic diversity of East Texas.

The mission of the nursing program is accomplished by:
1) Maintaining program accreditation by BON
2) Preparing students for licensure and entry level into nursing practice
3) Implementing a program that permits students to exit at either the vocational or associate degree level by achieving the Differentiated Entry Level Competencies of Graduates of Texas Nursing Programs (DECs)
4) Promoting a caring orientation in a technologically changing environment
5) Advocating a comprehensive approach to client care through use of the nursing process
6) Developing a curriculum that reflects advances in nursing practice, current health trends and changes in individual family and community (Revised 5/09)

Code of Ethics

Students are expected to demonstrate personal characteristics and qualities based on the Code of Ethics adopted by the National Federation of Licensed Practical Nurses, the International Council of Nurses, the American Nurses Association, and the Texas Board of Nursing.

1. Being responsible and dependable
2. Keeping confidential information*
3. Maintaining harmonious relationships.
4. Being loyal
5. Displaying relevant disposition and spirit.
6. Maintaining integrity.
7. Being sincere
8. Performing with dignity.
9. Following lines of authority.
10. Knowing yourself, abilities, capabilities and interests.
11. Upholding laws.

*All students must strictly maintain confidentiality with Health Insurance Portability and Accountability Act (HIPAA). Any violation will be investigated by the appropriate person and agency.
THE CODE FOR LICENSED PRACTICAL/VOCATIONAL NURSES

The Code adopted by National Federation of Licensed Practical Nurses, Inc. in 1961 and revised in 1979 provided a motivation for establishing and elevating professional standards. Each LPN/LVN, upon entering the profession, inherits the responsibility to adhere to the standards of ethical practice and conduct as set forth in this Code.

1. Know the scope of maximum utilization of the PN/VN as specified by the nursing practice act and function within this scope.
2. Safeguard the confidential information acquired from any source about the patient.
3. Provide healthcare to all patients regardless of race, creed, cultural background, disease, or lifestyle.
4. Refuse to give endorsement to the sale and promotion of commercial products or services.
5. Uphold the highest standards in personal appearance, language, dress, and demeanor.
6. Stay informed about issues affecting the practice of nursing and delivery of healthcare and, where appropriate, participate in government and policy decisions.
7. Accept the responsibility for safe nursing by keeping oneself mentally and physically fit and educationally prepared to practice.
8. Accept responsibility for membership in National Federation for Licensed Practical/Vocational Nurses and participate in its efforts to maintain the established standards of nursing practice and employment policies conducive to quality patient care.

Angelina College Nursing Program Code of Conduct

The Nursing Student Code of Conduct is based on an understanding to practice nursing as a student is an agreement to uphold the trust society has placed on nursing as a profession. The code provides guidance for nursing students in personal development of an ethical foundation in both academic and clinical settings intended to continue good ethical practices into the nursing profession.

American Nurses Association (ANA) Code of Ethics for Nurses, Provision 1.5, States:
"Relationships with colleagues and others: Respect for persons extends to all individuals with whom the nurse interacts. Nurses maintain professional, respectful and caring relationships with colleagues and are committed to fair treatment, integrity-preserving compromise, and the resolution of conflicts. Nurses function in many roles and many settings, including direct care provider, care coordinator, administrator, educator, researcher, and consultant. In every role, the nurse creates a moral environment and culture of civility and kindness, treating others, colleagues, employees, co-workers, and students with dignity and respect. This standard of conduct includes an affirmative duty to act to prevent harm. Disregard for the effects of one’s actions on others, bullying, harassment, manipulation, threats, or violence are always morally unacceptable behaviors. Nurse value the distinctive contribution of individuals or groups, and collaborate to meet the shared goal of providing efficient, effective, and compassionate health services, seeking to achieve quality outcomes in all settings” (American Nurses Association, 2014).

Texas Board of Nursing (BON) Good Professional Character, Rule 213.27a, states:
“Every individual who seeks to practice nursing in Texas must have good professional character. This requirement includes all individuals seeking to obtain or retain a license or privilege to practice nursing in Texas.” (TBON).

CODE OF CONDUCT FOR NURSING STUDENTS

Ethical principles are a necessary guide to professional development for students involved in both clinical and academic settings. Students are expected to follow the Code of Conduct. Failure to comply may result in disciplinary action.

Ground Rules:
Expected student behaviors include, but are not limited to:
1. Keep a copy of the course syllabus; bring syllabus and textbook to class.
2. Accepting responsibility for one’s own actions.
3. Adhere to dress code.
4. Arrive to class on time. Classroom doors may be locked when lecture begins.
5. Arrive at clinical rotation site on time.
6. Be prepared for class and clinical rotation.
7. Communicating with peers, faculty, nursing staff, clients and their families in an honest respectful, non-judgmental manner.
8. Treat the instructor with courtesy, even when there is a disagreement.
9. Do not interrupt instructor when speaking, wait for a pause or a preset time for questions to be asked.
10. Treat students with courtesy, even when there is a disagreement.
11. Work as a team; exhibits a helping behavior for peers that exemplify an assertive, rather than aggressive approach.
12. Maintain confidentiality.
13. Treat others with respect and promote an environment that respects the rights and values of others, diverse cultures and spiritual beliefs.
14. Use critical thinking skills in determining actions in the clinical setting.
15. Respect others by refraining from cell phone usage and avoiding sidebar conversations.
16. Avoid use of lap-top computers during lecture time, unless use is related to lecture.
17. Take exams as scheduled and completing assignments on time.
18. Avoid use of inappropriate, derogatory or vulgar language, gestures or remarks.
19. Attend class 100% of the time and remain in class until dismissed.
20. Notify instructor if unable to meet commitments, including exams and clinical assignments, in advance or by the morning of the assignment.
21. Arrange to make up missed work, if possible or if permitted.
22. Demonstrate empathy in the care of others.
23. Collaborate in a reasonable manner with faculty and clinical staff to ensure quality care to clients.
24. Recognize and respect professional boundaries.
25. Avoid belittling remarks and disparage.
26. Avoid dominating class discussions.
27. Avoid posting inappropriate comments on social media about faculty, colleagues or college.
28. Take appropriate action to ensure the safety of clients, self and others.
29. Provide care for clients in a timely, compassionate and professional manner.
30. Avoid classroom disruptions. If it is necessary to leave class early, when approved by faculty, exit in a quiet manner.
31. When arriving late, wait until the next break to enter.
32. Seek assistance of available tutoring services as needed.
33. Discuss with the instructor problems you are having with the class before asking others for help in resolving the situation.
34. Check on grades often and discuss concerns early. Do not wait until late in the semester.
35. Do not bring children to class.

**Academic Dishonesty**

Academic dishonesty is a breach of the expected behavior of a healthcare professional and will not be tolerated in the Angelina College Nursing Program. Students must agree not to divulge any examination question(s) or answer(s) to any individual or entity, falsify or plagiarize any assignments or examinations, nor participate in any behavior that can be construed as academic dishonesty. **Gaining access to or purchasing test banks is considered academic dishonesty.** Violation of any rule, policy, or procedure of the Angelina College Nursing Program will result in student referral to the Nursing Standards Committee for disciplinary action. See Code of Student Conduct in the Angelina College Catalog.
Also refer to Health Careers Division and Program Organizational Chart (see appendices).
RATIONALE FOR THE TEACHING-LEARNING PROCESS

We believe that learning is:

- Continuous in that behaviors are modified as a result of experiences which are mental, physical, social, and emotional in nature.
- Unitary in that the student responds to the whole situation, as he/she perceives it.
- Creative in that new patterns of behavior result from synthesis and application of meanings and interpretations as perceived by the learner, and teacher.
- Transferable in that previously learned behaviors can be applied to different situations.

The amount and quality of learning are directly related to the self-activity and selection of appropriate goals on the part of the learner and his/her abilities, experiences, and attitudes.

Learning is enhanced by the presentation of content in a logical sequence and in a meaningful and realistic manner, and by the utilization of a variety of learning experiences.

Because nursing occurs in a variety of settings, learning experiences are planned to occur in hospitals, nursing homes, physician’s offices, and community centers.

Angelina College Nursing Program
Conceptual Framework

The major concepts of education, man, health and nursing are interrelated and interwoven throughout this nursing program and interact dynamically to influence the learner’s nursing judgments.

Education: Education is viewed as a dynamic process by which the attainment of an individual's goals is facilitated. The adult learner comes to this program with diverse life experiences. Through participation, the adult learner is afforded opportunities to progress and attain sequential levels of success. Throughout the development of the curriculum, content and experiences are presented on a continuum. The continuum encompasses the simple to the complex; basic needs to self-actualization; concrete thinking to the more abstract; and, isolated data to an organized basis for facilitating this sequential development. The learner's responsibility is to progress from a dependent problem-solver to a self-directing decision maker. Within each level, the learner is responsible for achieving unit and course objectives. The faculty is responsible for creating a learning environment in which opportunities to meet the objectives are provided.

Man (client system): Man is a bio-psycho-social-spiritual being developing and moving through time. Man’s adaptive responses to stressor in this evolving process is based on his inherent potential and influenced by his individual experiences. Throughout the lifespan, man has certain basic needs. Maslow defines these needs as: physiological, safety, love and belonging, self-esteem and self-actualization. The learner recognizes this hierarchy that provides both structure and direction for planning care. Individualized planning focuses on the maintenance of dignity and health.

Health: Health is a dynamic state uniquely defined with the individual or group. On the continuum, health is an adaptive response to stressors in man’s environment. Towards the promotion of optimum health, the learner assists man by functioning within this continuum. Through the application of the nursing process, the learner facilitates man’s adaptation along the health continuum.

Nursing: Nursing is a decision-making process that occurs in a relationship with individuals or groups. The learner progressively develops decision-making skills by use of the nursing process. Uniqueness is recognized, needs are prioritized, interventions are planned and implemented with evaluation occurring continuously. Through the nursing process, specific patterns of adaptation are identified. The goal of nursing practice focuses on man’s adaptation to his ever changing needs by promoting utilization of healthcare services. Through awareness of trends and changes taking place in healthcare delivery, the nurse acts to provide nursing care and guidance on behalf of man. The foundation upon which nursing judgments are built is the understanding of spiritual concepts and facts and principles from the psycho social and biological sciences. Nursing interventions flow from various components of nursing theories and cognitive, affective and psychomotor skills. The knowledge, values, and skills necessary for the practice of nursing are acquired and implemented in this program through use of classroom, laboratory and clinical experiences.

The major concepts of education, man, health, and nursing are interwoven throughout the course objectives and evaluations. The courses work on the continuum of basic to complex.
During Level I, the learner is expected to identify the client’s basic needs as stated by Maslow and to discuss general stress-adaptation responses. The nursing process, including communication techniques and basic nursing interventions is presented to aid the learner in assisting the client in meeting basic needs. The learner is expected to recognize isolated significant responses of man to his environment. Legal and ethical issues are introduced in order to enable this direct caregiver to function as a dependent cooperative member of the healthcare team. The learner is accountable for seeking guidance and utilizing the lines of communication to meet own and client’s needs.

Throughout Level II, therapeutic communication is stressed for interactions with clients and groups including family and significant others. The learner is expected to implement individualized client care by grouping significant data and deciding on appropriate actions for commonly occurring health problems. The nursing process is the major problem-solving tool. This tool, as it is utilized, builds on the knowledge of behavioral and physical sciences. Inherent in the utilization of this process is the understanding of legal and ethical issues, adaptation responses, development through the life span, the health continuum and the progression of the healthcare giver’s autonomous role. As a collaborative interdependent member of the healthcare team, the learner is provided experiences to expand cognitive, affective and psychomotor abilities.

Within Level III, the learner is expected to expand and increase critical thinking skills in order to use nursing judgment. Opportunities are provided to further develop physical assessment skills, to group multiple data, and to utilize decision-making in varying, complex healthcare situations. Interventions are now evaluated based on the probability of predictable, therapeutic outcomes.

Within Level IV, Nursing roles and accountabilities are incorporated and emphasis is placed on continuing self-development and professional activities. (Revised 7-19-06)

**Program Objectives**

**Vocational Level (VN)**

Upon completion of the vocational option, the graduate nurse as a member of the profession should have the knowledge and skills to provide and coordinate care for clients (individuals) in a variety of settings and should be prepared to:

1. Demonstrate the use of critical thinking and the nursing process as a basis for decision-making that promotes the development and practice of vocational nursing.
2. Implement teaching plans for clients concerning promotion, maintenance and restoration of health that promotes the development and practice of vocational nursing.
3. Demonstrate the understanding of primary, secondary, and tertiary levels of prevention that promote the development and practice of vocational nursing.
4. Assume accountability and responsibility for the quality of nursing care provided to clients that promotes the development and practice of vocational nursing.
5. Determination of the bio-psycho-social-spiritual needs of clients throughout life cycle.
6. Selection of nursing diagnoses for clients in collaboration with the client and healthcare team.
7. Preparation of goals and plans of care for clients in collaboration with client and healthcare team.
8. Implementation of plans of care within legal and ethical parameters in collaboration with clients and members of health care team, utilizing learned theory concepts.
9. Provision of direct basic care to assigned multiple clients.
10. Evaluation of the individual client’s responses to nursing interventions.
11. Use of a problem-solving approach as the basis for decision making in practice.
12. Coordination of resources for the provision of client care.
13. Identification of client needs for referral to appropriate sources of assistance.
14. Participation in activities that focus on improving the healthcare of clients.
15. Promotion of the development and practice of vocational nursing.

**Associate Degree Level (ADN)**

Upon completion of the associate degree level, the graduate nurse as a member of the profession should have the knowledge and skills to provide and coordinate care for clients (individuals and families) in a variety of settings by:

1. Demonstrating the use of critical thinking and the nursing process as a basis for decision-making.
2. Exhibits behaviors that reflect commitment to the growth and development of the role and function of nursing.
Angelina College Nursing Program provides high quality nursing education in a culturally, racially, and ethnically diverse community. Positive teaching and learning environments are consistent with professional, educational, and ethical standards of nursing.

The Angelina College Nursing Program provides nursing education at five locations: Lufkin (A.D.N. & V.N); Crockett, Hudson, Jasper, and Livingston (V.N. only).

**Generic Associate Degree Nursing Program**: The Associate Degree Nursing track at the main campus in Lufkin is a multiple entry/multiple exit program (MEEP). Upon successful completion of two calendar years, students receive the Associate of Applied Science degree and are eligible to apply for registered nurse licensure by examination. Students may choose to complete two optional summer courses after their first year. This is designed to prepare students for the vocational nurse licensure by examination. These students receive a certificate of completion from Angelina College. Refer to college catalog for degree plan and course descriptions.

Applicants for the main campus nursing program are selected in the summer of each year. Acceptance into the program is limited. **Applicants are not guaranteed acceptance**. Those students admitted to the program begin the nursing curriculum in the fall semester.

**Multi Entry/Exit Program**: The MEEP option is approved by the Texas Higher Education Coordinating Board and is accredited by the Texas Board of Nursing for the State of Texas. This agency establishes rules and regulations governing education, examination, licensure and practice of nursing. Refer to college catalog for degree plan and course descriptions.

**LVN to ADN Transition Students**: Vocational nurses are allowed to apply for entry into the second year of the Associate Degree Program to graduate with their Associates Degree and become eligible to sit for the Registered Nurse licensure exam. Applicants for the nursing transition program are selected in the spring of each year. **Applicants are not guaranteed acceptance**. The grade point average in prerequisite courses and a grade of 90 or higher on the dosage calculations examination is used in the selection process. Applicants must be employed as an LVN for at least one year if not a graduate of an Angelina College VN program. Those students admitted to the program begin the transition curriculum in Summer Session I. Refer to college catalog for degree plan and course descriptions.

**Vocational Nursing Program**: The Crockett, Hudson, Jasper, Livingston, and Lufkin locations offer a vocational nursing track that prepares the graduate to independently perform basic nursing skills in non-complex situations and to assist the registered nurse or physician in complicated circumstances. Refer to college catalog for degree plan and course descriptions.

The nursing programs are approved by the Texas Higher Education Coordinating Board and accredited by the Texas Board of Nursing (BON). Graduates are eligible to apply for licensure by examination through the Board of Nursing.

Angelina College Nursing Program is an agency member of:
- National/Texas Organization of Associate Degree Nursing (NOADN, TOADN)
- Texas Association of Vocational Nurse Educators (TAVNE)
The Angelina College Nursing Track curriculum incorporates skills and competencies (SCANS and Differentiated Entry Level Competencies—See Attachment I) mandated by state agencies - The Texas Board of Nursing for the State of Texas (BON), and the Texas Higher Education Coordinating Board. The two sets of competencies are described below:

SCANS - In 1990, the secretary of the United States Department of Labor directed a commission to advise the secretary on the level of skills required for entry-level employment for American workers.

The Secretary’s Commission on Achieving Necessary Skills (SCANS) conducted extensive research and interviews with business owners, public employers, union leaders, supervisors, and laborers in a wide variety of work settings. In 1991, the Commission report *What Work Requires of Schools* and noted that "good jobs will increasingly depend on people who can put knowledge to work." Additionally, they estimated that less than half of the students currently exiting high school possess the ability to find and keep a good job.

From its research, the Commission determined that "workplace know-how" consists of two elements: foundation skills and workplace competencies. The Foundation Skills are defined in three areas: basic skills, thinking skills, and personal qualities. The Workplace Competencies are defined in five areas: resources, interpersonal skills, information, systems, and technology.

Differentiated Essential Competencies - In Texas, nursing practice flows along a continuum from the aide to the doctoral prepared nurse. Licensed Vocational Nurses and Registered Nurses currently form the core of providers of care, coordinators of care and members of the nursing profession. Preparation for the Licensed Vocational Nurse (LVN) examination is at the vocational level. Programs are provided either through community colleges, hospitals or proprietary schools and are accredited by the BON.

Basic educational preparation for the Registered Nurse licensure (RN) examination may be obtained through diploma, associate degree and baccalaureate degree programs of education. Each program provides the necessary preparation for practice as a registered professional nurse and is accredited by the Texas Board of Nursing for the State of Texas (BON).

Since the intent and focus of each of the different types of programs differ, the competencies of the graduates should also differ. However, the differences in competencies have not always been clear. As healthcare has changed and the demand for nursing has exceeded the supply, the roles and expected competencies have become blurred and overlapped. Curricula of nursing education programs were modified and yet communication among nursing education programs has been lacking. Thus graduates of VN, diploma, ADN programs have encountered obstacles in continuing their journey along the nursing practice continuum.

In response to concerns regarding barriers to educational mobility, the BON for the State of Texas approved a joint committee to advise the Boards in several matters related to the needs of nursing and nursing education in August/September 1990. The major focus of Differentiated Entry Level Competencies related to the need to identify nursing competencies to be required of graduates from each type of basic nursing program.

Verification - The Angelina College Nursing Program utilizes a matrix model to document that the Essential Competencies (Differentiated Entry Level Competencies and SCANS) skills are integrated into the curriculum. In addition, the Essential Competencies (Differentiated Entry Level Competencies) and (SCANS) skills are reflected in all Nursing course syllabi.
**Student Files**

Students are responsible for assuring the accuracy of information in their file. Any changes in name, address, or phone number(s) should be submitted in WRITING to instructors and the Nursing office. The Registrar’s office and Student Services should also be notified.

Students are responsible for requesting evaluation of transcripts to assure any transferring credit courses are accepted by Angelina College and the Nursing Program. Students that are transferring credits from another institute of learning should make an appointment with the Nursing Advisor, Program Director of Associate Dean for evaluation of credits. Admittance of transfer students into the Nursing Program will depend on space availability.

Active student records are stored in a fireproof locked cabinet, are up to date, and accessible to all faculty and board representatives. Graduate records and records of students who withdrew from the program are completed prior to permanent storage. Health forms are stored in a separate location from the student file and have limited access.

Students are required to make personal copies of all information submitted to the nursing program for their files. All documents submitted become the property of Angelina College Nursing Program and will not be copied for the students.

**Smoking/Tobacco**

A NO SMOKING policy is in effect at Angelina College. Angelina College is a smoke free and tobacco free campus.

**Electronic Devices**

Any electronic devices such as computers or iPads used in the classroom must be muted. As a courtesy, students with these devices should sit at the back of the classroom. Use of devices may not always be permitted. For the use of cell phones, refer to the Nursing Program Cell Phone Policy. Use of electronic devices for use of other than e-books or e-learning is not permitted. Use of electronics for personal business, surfing social media, or the web is not permitted.

**Gifts**

Students should not give gifts to instructors. Instructors should not give gifts to students.

**Children/Guests**

Children/guests are not permitted in the classroom without the permission. Children should not be left unattended or unsupervised on the campus. The parent or guardian remains responsible for the well-being of the child at all times. Children/guests are not allowed in the clinical area.
Section II: Program Guidelines

Attendance

Tardy: Tardiness is simply defined as not being in the assigned area at the assigned time.

Classroom: To prevent class disruptions, tardy students will not be allowed to enter the classroom until a break.
Students who are tardy a total of three (3) times will receive an absence. If the student comes in more
than 15 minutes late then it will be considered an absence.

Absences: is defined as not in attendance at all or more than 15 minutes late. Leaving the assigned area early can also
result in an absence.

• Classroom: Three consecutive or four cumulative absences in the classroom will result in withdrawal from the
theory course in progress, all co-requisite courses, and the program. Class attendance will be verified daily for
each class period.

• Clinical (including Lab & Simulation): Students are required to call the clinical instructor prior to clinical to
report an absence. Instructors will accept telephone calls from only the student. Students who do not call the
morning of the clinical absence must see the Nursing Program Director or her designee. A total of two no calls/no
shows while in the Nursing Program will result in dismissal from the Nursing Program. More than two absences
per course in the clinical area will result in withdrawal from the clinical course in progress, all co-requisite courses
and the program. The second absence will be made up in equal clinical hours before taking the final exam. The
make-up date will be scheduled accordingly.

Students may miss up to three (3) days during an educational semester without penalty for: documented death of
immediate family or hospitalization of immediate family or of the student. After three days (3), absences will be counted as
per the attendance policy. Immediate family is defined as spouse, children, and mother, father, brother, sister, or
grandparents (this includes step family). The student must submit proof of death or hospitalization to their Clinical
Instructor and/or the Nursing Program Director prior to resuming classes.

Withdrawal/Dismissal

Students may withdraw or be dismissed from the Nursing Program for the following reasons:

1. Academic failure (course grade below C or failing clinical grade)
2. Financial problems
3. Family/personal problems, excluding health
4. Excessive absenteeism due to illness
5. Excessive absenteeism, for reasons other than illness
6. Change of residence
7. Reason unknown
8. Other (specify)

Any student withdrawing or being dismissed must see the Nursing Program Director before official withdrawal or
dismissal can be obtained. Students who wish to withdraw from the nursing program must do so with both the
Nursing Program Director and the Office of Admissions. If the student does not officially withdraw in the Office of
Admissions, an “F” will appear on the transcript for the course in progress at the time. (5/07)

Readmission

Re-entry to the nursing program is based on space availability. Each student may re-enter a program once. To be
eligible for re-entry, the student must have formally withdrawn from the AC Nursing Program. The student must see the
NPD and follow the readmission process. The letter for re-entry must have a statement regarding a plan of action for
success.

Procedure: The student submits a written request for re-entry into the nursing program by formal letter.
Include the following in the letter:

1. Address request to the Nursing Program Director
2. Indicate the course desired for re-entry
3. Include current address, phone number, and e-mail
4. Enclose an updated college transcript

Written request with transcript must be received in the Nursing Programs office by the following deadlines:

<table>
<thead>
<tr>
<th>DEADLINE</th>
<th>SEMESTER of RE-ENTRY</th>
</tr>
</thead>
<tbody>
<tr>
<td>June 1st</td>
<td>Fall Start</td>
</tr>
<tr>
<td>October 1st</td>
<td>Spring Start</td>
</tr>
<tr>
<td>March 1st</td>
<td>Summer Start</td>
</tr>
</tbody>
</table>

1. The student must meet current admission requirements:
   - Eligible for readmission to the College
   - Pre-requisite courses completed with at least a C.
   - Dosage calculations test score of at least 90% within the past 24 months.
   - Updated CPR card
   - Updated TB and immunizations.
2. A response regarding readmission will be sent to the student via e-mail.
3. Health requirements and other instructions will be included in the response.
4. If readmission is denied because of lack of space in the desired course, the student must reapply.
5. A re-entry student will follow the current ACNP Student Handbook and college Catalog in place, at the time of readmission.
6. All readmission requests will be reviewed by a committee of faculty members.

Advanced Placement
Refer to College Catalog and Transfer Student Admission.

Audit Status
Returning students who are auditing nursing courses will be required to fully participate in all classroom learning experiences including lecture, activities, unit exams, skills, final exam, and HESI test. Students will also be required to attend remediation should they fail an exam. However, the test results will not change the course grade previously awarded. Auditing a course does not guarantee a space in the semester in which readmission may be requested. Students auditing courses will follow the same attendance policies of the nursing program.

Clinical courses are not auditable. Clinical is a requirement along with the previously failed nursing course. Students will be required to demonstrate required skills and show competency by passing that skill, assessment, and/or assignment in order to pass the clinical course again. If clinical is what the student failed, the student is required to audit all co-requisite didactic courses. Refer to Audit Contract found in appendices.

Students are responsible for being placed on audit status with the registrar’s office. If this form is not completed, and the student is not placed on audit status in a particular course, then the student will be given the grade earned in the course.

Progression
Progression in the nursing program results in successful completion of the vocational level or associate degree level curriculum, but does not guarantee a license to practice nursing. A student must earn a minimum grade of “C” or “P” in all required courses in order to progress within the nursing program. All nursing courses must be taken in the appropriate sequence. Students’ progress from one nursing course to the next course in the curriculum when:

1. the minimum passing grade is achieved (75 or above)
2. clinical performance is satisfactory (pass or fail)
3. all Dosage Calculation tests are completed (90 or above)
4. all assignments are successfully completed and submitted
Classroom Grading
Nursing education consists of theory and clinical (including laboratory and simulation) components. Students are required to maintain satisfactory grades in all co-requisite courses. An unsatisfactory grade in either clinical or theory results in failure to progress in the program. To reflect progress in the Angelina College Nursing Program (ACNP), a grade of “C” or better must be maintained. The grade of “D” is not included in the grading scale.
The specific grade distribution for the ACNP is:
- A = 90-100
- B = 80-89
- C = 74.5 - 79
- F = 74.4 and below

The grading scale is not negotiable.
There will be NO rounding test grades. After averaging, the final grade is the only grade rounded.

Clinical Grading
Course grade is computed on the basis of satisfactory completion of clinical assignments, skills criteria, and clinical evaluation. If the student’s effort does not meet all requirements, the assignment, skills or clinical criteria must be corrected. Students must demonstrate clinical competence by satisfactorily meeting all critical elements (clinical behaviors essential to safe practice per the Clinical Evaluation Criteria within each clinical course). Violations of a critical element may be considered unsafe conduct. Refer to the semester evaluation criteria and the Differentiated Essential Competencies of Graduates of Texas Nursing Programs (DECs), issued by the Board of Nursing.

In the event of unsafe conduct, a student will be dismissed from the course with a grade of “F”.

Unsafe Conduct
Angelina College nursing faculty members will refer a student to the Nursing Standards Committee for any of the following:
1) Unprofessional or dishonorable conduct which, in the opinion of the nursing faculty, is likely to deceive, defraud, or injure patients/client, family members, or the public.
2) Academic dishonesty.

Grading Scale:
- Pass
- Fail

Grade Distribution:
- Written clinical assignments
- Critical Skills (check-offs)
- Clinical evaluation criteria (clinical performance)

Grade Calculation:
All written clinical assignments must be satisfactorily completed. Must show competency in skills and be completed by designated date. Clinical evaluation criteria must be met.

Dosage Calculation Test
A medication calculation test will be administered each semester in all of the clinical courses prior to students going into the clinical settings. A grade of 90 or better is required each semester. Students are allowed three attempts to pass (90 or above) the Dosage Calculation test each semester. Should a student be unsuccessful within those three attempts, the student will be dropped from the nursing program and receive an “F” in the clinical course.

Examinations
Students must be present and on time for all examinations. In order to take a make-up exam, the student must submit a written request to the Level Leader before the next scheduled exam. Make up exams will be administered at designated dates/times. Students must make a formal request to the Level Leader stating the course and exam missed.

Attendance at the scheduled final examination is required and may be rescheduled only with the approval of the Associate Dean of Health Careers.

AC nursing program provides a Remediation/Retention specialist to assist students who are at high risk for being unsuccessful in the nursing program. (See the Appendix for Remediation Policy.) It is required that students meet with the Remediation/Retention specialist after failure of first exam at each level. (Refer to Remediation Policy).

“Smart” watches are not allowed during examinations.

Grade Appeal Process
Questions regarding a grade must be submitted within seven (7) days of release of the grade. Refer to the college catalog for the grade appeal process.

Due Process/Grievance Procedure

Students have the right to due process as outlined in the Angelina College Catalog. The following procedure outlines the steps of progression. If the grievance is not resolved at the first step, the student will proceed through the steps sequentially until resolution has been obtained. According to Angelina College policy as written in the Catalog, this process should be no longer than 10 days. The grievance must be filed in the semester in which it occurs.

Procedure:
1. Student submits written grievance to faculty or staff member involved.
2. Faculty or staff member responds to the student grievance in writing.
3. If student is satisfied with the written response, the grievance is resolved. If dissatisfied with the response, the student submits written grievance to the Level leader.
4. The team leader responds to the student grievance in writing.
5. If student is satisfied with the written response, the grievance is resolved. If dissatisfied with the response, the student submits written grievance to the Nursing Program Director.
6. The Nursing Program Director responds to the student grievance in writing.
7. If student is satisfied with the written response, the grievance is resolved. If dissatisfied with the response, the student submits written grievance to Associate Dean of Health Careers.
8. The Associate Dean responds to the student grievance in writing.
9. Student may request conference with faculty involved, Nursing Program Director, and Associate Dean of Health Careers.
10. If student is satisfied with response, the grievance is resolved. If dissatisfied with the response, student submits grievance to the Vice President of Academic Affairs.
11. The Vice President of Academic Affairs responds to the student grievance in writing.
12. If student is satisfied with the written response, the grievance is resolved. If dissatisfied with the response, student submits the written grievance to the College President.
13. The College President responds to the student grievance in writing. This decision is final. (Revised 4/1/05)

Students with Disabilities

The Angelina College Disability Services Handbook (available at www.angelina.edu; Student Services) outlines the college policies and procedures for providing reasonable disability accommodations at the post-secondary level. The goal of this service is to assist any student with a disability to be successful in our academic community.

For the qualified individual with a disability, the college provides reasonable accommodations as defined in the Rehabilitation Act of 1973, Section 504, and the Americans with Disabilities Act of 1990, and the ADA Amendments Act of 2009. The college will make reasonable accommodations for qualified students with a diagnosed physical and/or learning disability who apply for admission. If reasonable accommodation in registration procedure or instructional environment is requested, the student must obtain an Application for Disability Services from the college website and have an interview with a support services counselor. Current medical and/or psychological documentation, which verifies their disability, will be required with the Application for Disability Services. Reasonable accommodation requests and documentation are subject to review by a special needs committee. The deadline for applying for assistance with the Special Student Support Services Office is normally four weeks prior to the beginning of the initial semester of enrollment, to allow time to provide adequate coordination of services. The deadline for applying for subsequent continuous semesters of enrollment is two weeks prior to the beginning of regular college registration for that semester. For more information concerning special services for students with disabilities, contact Sellestine Hunt, Associate Dean of Student Services at shunt@angelina.edu.

The student is responsible for notifying each instructor of any accommodations needed at the beginning of each semester.

Certified Background Check & Fingerprinting

Certified background check will be done in accordance with the rules of the Texas Board of Nursing:

Criminal background checks are performed on all applicants for Licensure in Texas. A criminal background check must be completed through the Department of Public Safety (DPS) and the Federal Bureau of Investigation (FBI) based on the set of fingerprints you provide to MorphoTrust. The BON cannot accept fingerprint cards or criminal background check results
mailed by the applicant, or results that were completed for another facility, even if the previous check was completed through the DPS and the FBI. Refer the BON website at www.bon.texas.gov for further information on this process. A clear background check is required for conditional acceptance into the Nursing Program. Students are responsible for all costs associated with fingerprinting, background check, and profile database charges.

Contents of Certified Background Check
The certified background check will include the following search and results:
- Texas Statewide Criminal (felony and misdemeanors for 7 years)
- Nationwide Sexual Offender Registry
- Social Security Verification
- Residence History
- Nationwide Healthcare Fraud and Abuse Scan
- U.S. Patriot Act

Consent for Release of Information
Students will sign a release form that gives the Associate Dean of Health Careers and Nursing Program Director the right to receive their criminal background information.

Unsatisfactory Results
A student with an unsatisfactory certified background screen will not be eligible for the Nursing Program or will be required to withdraw from the program. A student may be considered for admission or readmission to the program when they receive notification that they are eligible for licensure.

Student’s Right
If the student believes his or her background information is incorrect, he/she will have an opportunity to demonstrate the inaccuracy of the information to the investigating agency. All researching of court records and documents will be the responsibility of the student. Students may appeal if issues related to the background check are not resolved. Appeals are to be submitted to the agency responsible for the background check procedures.

Alcohol and Drug Policy
Angelina College and the Nursing Program strictly prohibits any student from being in a clinical setting or on the campus under the influence of alcohol, drugs, or controlled substances. Students should be familiar with the institutional alcohol and drug policy as provided in the Angelina College Student Handbook.

All students accepted into the Angelina College Nursing Program are required to be drug tested prior to beginning their clinical rotation. A student’s participation in clinical depends upon the outcome of the drug test. If a student is suspected of being under the influence of alcohol or drugs in the clinical setting, the instructor and/or a clinical affiliate reserves the right to require a drug test in accordance with its institutional policy.

Drug Screens
A negative drug screen is required prior to the start of the clinical rotation. Students are to report to the screening facility at the scheduled date and time. Students failing to report for drug screening and/or have a positive screening will be dropped from the program. Students are responsible for payment of the drug screen.

Liability Insurance
Students are required to purchase liability insurance each year in order to participate in learning experiences at clinical facilities.

Medical Care Required As A Result of Student Accidents
As a student enrolled at Angelina College, you will encounter certain risks while you are enrolled in a classroom, laboratory, or clinical setting. In the event that you sustain an injury and/or require any medical testing or care, all resulting medical expenses (hospital, ambulance, or physician fees), are your responsibility and not the responsibility of Angelina College or the clinical/practicum site.

It is recommended that you purchase a student/personal health insurance plan (medical/hospitalization) if you are not covered by a group health insurance plan.

**Health Requirements: Immunization Record & Test Results**

Students are required to upload their personal immunization record and test result information to a specified company database. This information must be maintained and updated throughout the program. Clinical facilities and accreditation standards require this information, therefore, students will be asked to provide their immunization record and test results upon request. Should a student be out of compliance with the required information, they will be dismissed from clinical and will not be allowed to return to clinical until the missing information is obtained and/or updated. This could result in clinical failure. Refer to the Nursing Program Health Requirements and attendance policy.

Failure to comply with the health requirements could result in ineligibility for admission, progression, or readmission to the program.

**CPR**

A current American Heart Association (AHA) Basic Life Support (BLS) Cardiopulmonary Resuscitation (CPR) card is required and must be maintained while in the nursing program. Proof of current CPR card must be on file and accessible at all times. Students are required to upload a copy of their CPR card to the specified company database. Should a student let their CPR card expire, they will not be allowed to go to clinical. This could result in clinical failure. Refer to the Nursing Program requirements and attendance policy.

**Student Conferences**

All conferences between a faculty member and a student are documented and placed in the student’s file. The conference may be recorded if both participants agree. The recorded conference must include the date and time of the conference, name of the participants, a statement of agreement by both parties to record the discussion, the topic for discussion and the actual discussion.

A witness may be present during a conference if both parties are notified in advance. The witness cannot participate in the discussion and must be identified in the written or recorded documentation.

Documentation is maintained for a period of two (2) years at which time only those items required by the accreditation boards are maintained in a permanent file. (See Health Careers Division Student Counseling Form in Appendix)

All student conferences are documented and become part of the student file.

**Student Advising/Counseling**

Students having difficulty should seek counseling from team leader or clinical instructor. (See *Remediation Plan or Student Counseling Form in Appendix) The Nursing Programs Director will the Associate Dean in advising students and maintaining degree plans. Degree plans are reviewed three times and as needed from entrance to graduation from the program.

**Course/Instructor Evaluation**

Students are given opportunities to evaluate specific courses, theory and clinical instructors, and the nursing program. Constructive student feedback is important in improving the curriculum and instruction. Evaluations are completed online at a time specified by the instructor.

**Supplies**

Students are required to purchase a nursing pack that contains supplies for laboratory skills practice. Students will be notified where to purchase these packs in the acceptance or readmission letter from the Program Director.

**Academic Portfolio**

The nursing program portfolio is a collection that represents the work the student has done during the program. Samples of papers completed in each course will be added to the portfolio throughout the curriculum. The portfolio is an excellent resource that showcases the student’s work for future employers. The selections chosen to be in the portfolio are designed to give evidence of having achieved the objectives of the program and the outcomes critical thinking, communication, teamwork, social responsibility, and personal responsibility. (See Program Academic Portfolio in
**Dress Code**

Students are required to obtain the official Angelina College Nursing Program uniform, picture name badge, and appropriate footwear prior to the first clinical day (see course calendar for specific date). Students are responsible for laundry and maintenance of uniforms and lab coats throughout the nursing program.

1. The student uniform consists of:
   a. A minimum of two sets of designated scrubs. No polo or jersey type tops. No decoration on scrubs. *Angelina College, Health Careers Division insignia must be on upper right side of uniform.*
   b. White shoes or athletic shoes with no colored decor. Shoes must be water resistant, no mesh or canvas shoes allowed. Shoes and shoelaces must be kept clean. Socks must be white.
   c. A watch that indicates time in seconds.
   d. School issued student name badge worn on the upper left front torso with name and title (Angelina College Nursing Student) showing. Badges must be free of pins, stickers, etc.

2. Additional approved attire:
   a. Designated scrub jackets with insignia may be worn with scrubs for comfort while in the clinical area.
   b. Appropriate undergarments must be worn with uniforms. White t-shirts may be worn but must be concealed under the uniform except at the neck.
   c. Tattoos on forearms must be covered with a white long sleeve shirt. Other visible tattoos will be covered at the discretion of the clinical instructor. Offensive tattoos are required to be covered.
   d. White or neutral hose must be worn with dress or skirt uniforms.
   e. For safety and infection control, jewelry that is allowed: one ring on the left ring finger, one small stud type earring per ear, in the lobe area only. No other body jewelry, ornaments, or decorations are allowed.
   f. Hair must be neat, clean, off the shoulders and in a moderate style that will not compromise safety (for example hair will not fall or obstruct vision or fall forward over work area). Hair pins/clips must match hair color. No extreme hair color, ornaments, or bands are allowed. No head coverings permitted.
   g. Beards, mustaches and sideburns must be neatly trimmed; otherwise, face should be shaved clean. Extreme styles are not permitted.
   h. Community uniform consists of designated blue AC Nursing Program shirt with khaki pants.

3. Personal Hygiene:
   a. Students must present a clean, well-groomed appearance at all times while in uniform.
   b. All attire should be of modest fit and neat in appearance. Scrubs must be clean and wrinkle free.
   b. Use of an antiperspirant/deodorant is recommended.
   c. Colognes, aftershaves, and perfumes are not permitted. Practice good dental hygiene.
   d. Nails should be clean and well-manicured. Extreme length, covers/or nail polish is not acceptable.
   e. Cosmetics must be neat. Extremes are not acceptable.
g. Any part of the uniform that becomes permanently soiled or in a state of disrepair must be replaced.

4. Other Rules:
   a. No smoking (including e-cigarettes or vaping) or gum chewing will be allowed while on college campus, facility campus or while in uniform.
   b. Jeans, overalls, and shorts are not allowed while in clinical, unless otherwise specified.
   c. Wearing of unapproved apparel and covering it with a lab coat is not acceptable and is a violation of this policy.
   d. Failure to comply with guidelines may result in the student being sent home at the discretion of the instructor.

**Clinical dress code will conform to assigned clinical agency policy. Name badge will be worn to all clinical areas.**
Section III - General Information

Inclement Weather
Angelina College officials will notify local television and radio stations by 6:30 a.m. if the college schedule is affected by inclement weather. Students should contact their clinical instructors for guidance regarding clinical assignments and travel before 6:30 a.m. Also, refer to the college Inclement Weather policy.

Early Warning System
The academic success of students at Angelina College is of paramount importance and one of the institution’s foundational goals. An Early Alert system is used to notify students and various college services when an instructor feels a student’s class performance needs attention. These notifications are sent to college assigned email accounts and students are encouraged to visit with their instructor should they receive this notification. The Business Office will use this information to hold any financial aid checks for anyone not attending and participating in an effort to reduce the unearned financial aid paid to students. (Revised 05/14)

Financial Aid
Financial aid information is available from the Financial Aid in Student Services. A number of scholarships are available; refer to the Angelina College Catalog.

Certificates of Completion
Nurse Aide Level: Students who successfully complete the first semester of a nursing program may apply for state certification.

Vocational Level: Students who successfully complete the vocational level objectives may apply for a Certificate of Completion from the Registrar’s office.

Graduation
Prospective graduates must apply for graduation at the Admissions office during the last semester of the nursing program. The cap and gown fee is paid during spring registration. Deadlines are announced and/or posted on the academic calendar on the website. Refer to the Angelina College Catalog for specific graduation requirements.

Employment
Employment arrangements are between the student and their employer. Full-time employment is discouraged due to the strenuous nursing curriculum and requirements.

Committee Membership
Student representatives are elected by their peers to serve on the following nursing program committees:
Curriculum (See Appendix)  Nursing Standards (See Appendix)

Student Organization
The Angelina College Nursing Students’ Association (ACNSA) introduces students to the professional organization and involves them in health-related community issues. Membership is $1.00/year. The ACNSA meets as needed. See Appendix, Angelina College Nursing Students Association Bylaws.

Students are encouraged to join the National Student Nurses Association for a fee. Refer to www.nsna.org

Computer Requirements
All nursing courses are web enhanced. Students are required to have internet access. This service is available to all students through local resources, including; Health Careers Computer Lab, AC Library, and Public Libraries.

Computer Policy
**Rules Regarding Angelina College and Health Careers Division**

Listed below are the most important and most misunderstood rules about Angelina College computer systems. These rules apply to anyone using such resources: student, faculty, and staff. Learn these rules so that you don’t get into trouble. Violations of these rules might result in losing your opportunity for free access to the World Wide Web, being expelled from the college, or criminal charges.

**Note:** If you have a question about whether a specific use of computing or networking resources is legal or appropriate, ask before you begin to use it. *(Instruction Technology: 633-5208 or ithelpdesk@angelina.edu)*

Please read these rules carefully. Some of them are also covered in **Computer Crime Law**.

1. Students may download information from the Internet with Instructor’s approval.
2. Never try to circumvent login procedures on any computer system or otherwise gain access where you are not allowed. Exit to the desktop. If you encounter an error in the program, please notify the computer lab assistant or your instructor. Do not attempt to manipulate any software located on the computer.
3. You will also be held responsible for destructive or illegal activity done by someone to whom you provided access or instruction. *(This rule applies even if the activity does not require a password).*
4. Never use any college-provided computing resources to do something illegal, threatening, or deliberately destructive; even as a joke. All complaints will be investigated. Violations can result in disciplinary action, criminal charges, or both.
5. You may not be paid or otherwise profit, from use of any college-provided computing resources or from any output from using it. You may not post advertisements for products that you sell nor promote any organization in which you may profit in any way.
6. Be civil and courteous of others wishing to use the computing resources. Do not send email, unless instructed by an Instructor. *(In this instance, ask for assistance from a staff member.)* Do not access chat room, MOO’s, MUSH’s, or other intercommunication with anyone on the Internet.
7. Be careful of copyright infringement. Copyright laws for online information are still evolving, but duplicating other people’s text or graphics can get you into trouble, even if the work did not contain a written copyright notice.

**Concealed Carry of Handguns Policy**

Refer to Angelina College’s Policy and Procedure Manual under CHF (Site Management - Weapons) and CHFA (Concealed Carry of Handguns) found on the college website. *(April/May 2017)*
Appendices

Nursing Standards Committee

Purpose:
To investigate situations involving unprofessional student conduct or academic dishonesty, and to decide appropriate disciplinary action.

Goals:
To ensure the academic and ethical standards of the Nursing Program.
To provide objective review of all cases.

Composition and Terms of Membership:
1-2 Associate Dean of Health Careers and/or Nursing Program Director
1 Chairperson, appointed by Dean or Nursing Program Director
2-4 Nursing Faculty (at least one first year instructor and one second year instructor)
1-2 Nursing student representatives (First and/or Second year student representative)
1-2 Facility representatives (if applicable)

Quorum:
A simple majority will constitute a quorum for the transaction of business.

Procedure:
1. The faculty identifying unprofessional student conduct conferences with the student involved.
2. The faculty member submits the conference sheet to the NPD who calls the Standard Committee into session.
3. The committee investigates the situation by reviewing written records, interviewing students and faculty, and gathering additional data as required.
4. The committee decisions regarding disciplinary action, if any, are made in executive session by a simple majority of the membership.
5. The chairperson notifies the student involved of the committee’s decision in writing and places a copy to the notice in the student files.
6. Copies of the decision letter, committee minutes, and any pertinent documentation are forwarded to the NPD with the student file.
7. The student may appeal the committee decision by initiating the grievance process.
8. All discussion within the committee is considered confidential.

(Revised 7/3/17)
Nursing Curriculum Committee

Purpose: To study, plan and recommended to the faculty organization matters pertaining to identification, description, implementation, and evaluation of all learning experience and content for curriculum of the Nursing Program.

Members:

a. Members of this committee will be appointed by the Faculty Organization Committee.
b. Student membership shall be elected by the end of the first month of the fall semester by each class with one representative from each level for a term of office of one year.

Functions:

Plan and develop a curriculum framework and schematic design.

a. Review content to be taught in the nursing courses and make recommendations to nursing faculty and Nursing Program Director.
b. Review and recommend textbooks used in nursing courses.
c. Recommend revision of content and learning experiences:
   d. 1) Devise a method of obtaining information from recent graduates and employers as a means of evaluating the effectiveness of the curriculum.
    2) Seek information from nursing service regarding curriculum.
    3) Review results of tests and their relations to curriculum contents.
    Keep nursing service agencies informed of curriculum.
    Recommend class schedule for nursing courses
    Appoint members to subcommittees.
    Follow "Total Program Evaluation" in areas pertinent to curriculum matters.
Angelina College Nursing Students Association Bylaws

ARTICLE I: NAME

The name of this organization shall be the Angelina College Nursing Students’ Association hereafter referred to as ACNSA.

ARTICLE II: PURPOSE AND FUNCTION

Section I: Purpose

ACNSA shall:

A. Assume the responsibility for contributing to nursing education in order to provide the highest quality of healthcare.

B. Provide programs representative of fundamental and current professional interest and concerns

C. Aid in the development of the whole person, his/her responsibility for the healthcare of people in all walks of life, and his/her professional role.

Section II: Function

ACNSA shall:

A. Have direct input into standards of nursing education and influence in the educational process.

B. Influence healthcare, nursing education, and practice through legislation activities as appropriate.

C. Promote and encourage participation in community affairs and activities as appropriate.

D. Represent nursing students to the consumer, institutions and other organizations.

E. Promote and encourage recruitment efforts, participation in student activities and educational opportunities regardless of race, color, creed, sex, national origin, economic status, age or lifestyle.

F. Promote and encourage student participation in interdisciplinary activities.

G. Promote and encourage membership in a professional nursing organization such as the American Nurses Association, National Organization for Associate Degree Nursing International council of Nurses, as well as other nursing and related healthcare organization.

H. Provide a pre-professional organization on the local level and encourage participation in meeting and activities.

I. To aid in the growth and development of the individual student by developing leadership qualities.
ARTICLE III: MEMBERS

Section I: Association membership shall consist of at least one faculty sponsor from each level of Angelina College nursing program.

Section II: There will be three classifications of membership:
   A. Active - Student enrolled in the nursing program leading to licensure as a Registered Nurse.
   B. Associate - Pre-nursing students, enrolled at Angelina College as preparation for entrance into Nursing Division, leading to an associate degree in nursing. Associate members shall have all privileges of active members except the right to hold office.
   C. Subscriber - Membership open to any individual interested in furthering the development and growth of ACNSA. This category is not open to those eligible for active membership. Subscriber members shall receive literature about the local organization as deemed pertinent by the Board of Directors.

Section III: All paid members of ACNSA will have voting privileges.

ARTICLE IV: DUES

Section I: Dues
   A. The annual dues shall be $1.00 per member, payable for the appropriate dues year. The dues year shall be a period of 12 consecutive months. Dues are placed in the ACNSA account.
   B. Active, Associate and subscriber membership dues shall be renewable annually.
   C. Any member who fails to pay current dues shall forfeit all privileges of membership.

ARTICLE V: REPRESENTATION

Section I: Representation
   A. Recognition
      1. Where membership is composed of active or associate members, and bylaws have been other approved and remain current and upon meeting other such policy regulations as the Board of Directors have determined, shall be recognized as a constituent member.
   B. Requirements
      1. For initial recognition, this chapter shall be composed of at least eight (8) paid members which includes two presidents, two vice-presidents, two secretaries, two treasurers plus a faculty sponsor.
ARTICLE VI: OFFICERS

Section I. The elected officers of the organization shall be:
One President for each level
One Vice-President for each level
One Secretary for each level
One Treasurer for each level
One Historian for each level
One Student Representative for each level and each campus

Section II. The following qualifications shall be required of all candidates for office in ACNSA.
A. Must have scholastic average of C or above
B. Must be willing to function as an officer.
C. All officers must be active members of ACNSA.

Section III. Duties of the officers

A. The President shall:
1. Preside at all business meetings of the association and the Executive Board.
2. Serve as an ex-officio member of all committees.
3. Have authority to call special meetings
4. Approve expenditures as presented by the Treasurer and authorized by the Board.
5. Be the official representative of ACNSA.

B. The Vice-President shall:
1. Assume the duties of the President in the absence of that officer
2. Act as chairman of the Bylaws Committee.

C. The Secretary shall:
1. Provide records of all organizational correspondence.
2. Record the business and planning of the organization.
3. Provide a register of all membership for roll call and business purposes.

D. The Treasurer shall:
1. Submit a request to the board for funds to be withdrawn for expenditures.
2. Keep a record of all dues paid, together with a list of all members in good standing.
3. Submit a financial report at the regular meetings
4. Submit a financial report to the Executive Board when requested to do so by any member of the Board.

E. The Historian shall:
1. Gather and maintain documents, pictures, and memorabilia for the class.
2. Assist other officers with fundraising, activities, and class projects.
3. Assist ACNSA sponsor with pinning/graduation ceremony.

F. The Student Representative shall:
1. Assisting the class officers in organizing student events such as the pinning ceremony, fund raisers, etc.
2. Representing the class at advisory board meetings.
3. Encouraging other students and being a role model to others in grades, attitudes, and performance.
4. Acting as a liaison when organizing class events.

G. All officers shall deliver to their successors all records, papers or other property belonging
to ACNSA within two weeks after their retirements from office.
ARTICLE VII: ELECTIONS

Article VII: Elections

Section I: Elections shall be held yearly to elect officers and the members of the nomination committee. All officers will be filled by election during first semester. All officers shall serve from the fall semester through the spring semester (Upper Level Graduating officers) or through the summer semester (Lower Level Officers). Vacancies left by officers who leave their office prior to expiration of term will be filled by a special called election during the semester.

Section II: Elections shall be held by secret ballot and supervised by one faculty sponsor.

Section III: All nursing students will be eligible to vote for officers. In case of a tie, a re-vote will be taken to break the tie.

Section IV: The time and place for election will be specified by the faculty sponsor.

ARTICLE VIII: MEETINGS

Section I. The ACNSA shall hold one regular monthly meeting. The schedule for regular monthly meetings will be adopted by the Board each semester based on class and clinical schedules.

Section II. The meetings shall be open to the Angelina College Nursing Students, Faculty Advisors, pre-nursing and special quests of the ACNSA unless otherwise specified.

Section III. All members are expected to be present.

ARTICLE IX: STANDING COMMITTEES

Sections I. The committee shall be composed of members of the ACNSA and shall assume such assigned by the President and specified in these bylaws.

Section II. There shall be the following Standing Committee.
A. Committee on Bylaws
B. Committee on Public Relations
C. Committee on Projects

Section III. Duties of Standing Committee
A. Committee on Bylaws shall:
1. Be composed of the Vice-President as Chairman and 2 members appointed by the Vice-President
2. Review the Bylaws and propose amendments to the Board of action, annually, at a time to be designated by the Vice-President.

B. Committee on Public Relations shall:
1. Be composed of a Chairman, appointed by the Chairman.
2. Send items of interest concerning the ACNSA activities to the school and local newspaper and other news media.
3. Review all material to be published with the faculty advisor for approval.

C. Committee on Projects shall:
1. Be composed of a Chairman, appointed by the President and two members appointed by the Chairman.
2. Organize money making projects and present such plans to the Board and the membership body.
3. Organize one community project per year.
ARTICLE X: EXECUTIVE BOARD

Section I. The Executive Board of the ACNSA shall consist of the officers of this association.

Section II. This Board shall meet at the time decided by the Presidents.

Section III. The Board shall:

A. Transact business of the ACNSA between meeting of the association and report such transactions at the next meeting of the ACNSA.

B. Have power to fill vacancies in any office except vacancies occurring in the office of the President.

C. Approve the budget, authorize all money disbursement, and provide annual audits of accounts for close of the fiscal year.

D. Perform all other duties as may be specified in these bylaws.

ARTICLE XI: QUORUM

Section I. A quorum at the regular business meeting of ACNSA shall be ten percent of active members one ACNSA officer each level meeting.

Section II. A quorum at meeting of the board shall consist of four members.

ARTICLE XII: AMENDMENTS

Sections I. These Bylaws may be amended annually by a two-thirds vote of the members present and voting. All proposed amendments shall be prepared by the Bylaws Committee and be submitted to the examination and discussion of the association one meeting prior to voting.

Section II. Proposed amendments may be submitted to the Bylaws Committee by any members.
Angelina College
Nursing Program
Remediation Guidelines for Standardized Tests and Exit Exams

Specialty Tests

- The conversion score on the initial exam (first attempt) or second attempt, whichever is higher for each specialty test will be 10% of the grade dissemination for the related theory course.
- Students with scores at or above the national average (Currently 850) will be deemed successful on any Specialty Tests or Exit exam and will continue on in the natural progression of the nursing program.
- A score below the national average (850) constitutes an unsuccessful exam score thus requiring remediation. The remediation plan must be followed in order to retake the exam. The remediation plan for the Specialty Tests is outline below.
  1.) Remediation will be specific to the area of weakness as defined by the Specialty Tests.
  2.) After review of the remediation material, the practice test (Evolve) related to the current subject will be taken. The student is responsible for bringing proof of successful completion of remediation to the faculty member administering the second test immediately prior to taking the exam.
  3.) If the student is successful on the second attempt, the student will follow the natural progression of the nursing program.
  4.) If the student is unsuccessful on the second attempt, the remediation as defined by the second Specialty Exam must be completed and submitted to designated faculty or the Nursing Program Director.

Exit Exam Policy (HESI/ Evolve)

- Students scoring below the national average (currently 850) on the initial (first attempt) of the Exit exam must complete the targeted remediation as provided by Evolve (HESI).
  1.) If the student is unsuccessful on the second attempt (850), the student will:
     a.) Completion of the approved NCLEX Review course, RNSG 1X93, and all contract obligations.
     b.) Completion of the approved NCLEX Review course and receiving a passing score (benchmark) on the third HESI Exit test. If they reach the benchmark, their requirements are considered fulfilled and their AOG will be released. The test date is expected to be in late May, exact date TBA.

The student will not receive a permit to practice as a GN (the affidavit will not be submitted to the BON) until the contract has been fulfilled.

Angelina College
Netiquette for Newbies

Netiquette refers to “Network Etiquette” meaning it is the way one should behave when sending email, posting of bulletin boards (also known as a Discussion Forum) and chatting on-line. The following are guidelines to refer to in Blackboard. A newbie is a person that is new to a subject online (i.e. Blackboard newbie, netiquette newbie, Word newbie).

- Never “say” anything that you would not want posted on the wall or a face to face classroom, because it could be!
- Behave as you would in a face to face classroom.
- Remember there is a real live person at the other end reading your posts and email. Treat them with respect.
- Think about what you have written before you submit it.
- Watch your “tone” – it’s written. It can be very easy to misinterpret someone’s meaning on-line.
- Use emoticons (see below) to help convey your “tone”.

Appropriate Emoticons

Over the Internet we can’t read body language (smiles, nods of the head or looks of disapproval, and we can’t hear the tone of another person’s tone). Sarcasm, in particular, comes across poorly in Internet communication. Emoticons can be helpful to clarify a comment where the tone could be misunderstood. Tone is as important in a message posting as it is when you are speaking in person. Reread your message before posting to see if your tone is civil and respectful.

Emoticons are also known as smileys. A few examples:

:-)Your basic smile, ha ha
:-)Winking smiley (I’m kidding or sarcasm)
:-(Frowning smiley (I’m sad, it made me sad or I didn’t like it)
:-P Sticking out tongue (as in joking)

Use them occasionally where necessary overuse is annoying.

Check your spelling. On-line does not equal poor English (contrary to what most people seem to believe)

Try to be logical and methodical in your response. Avoid incomplete thoughts and imprecise language and terminology.

Keep to the assigned topic or course theme. Don’t waste other people’s time with irrelevant discussions.

When replying to specific content in previous messages, hit the “quote” button to reply so you can quote directly from that previous message. If you are addressing a specific person, use that person’s name as you would in a face-to-face encounter.

It is not acceptable for the work or ideas of another author to be presented in a message as your own work or ideas. Direct quotations longer than a paragraph are usually unnecessary and are discouraged. Try starting your own understanding of the person’s work instead, giving them credit for the original idea (cite name and source of idea). If the information is on the web, simply provide the URL to that webpage. Incidents of suspected plagiarism will result in the denial of access to Blackboard as well as disciplinary action.

Don’t start a new thread if the topic you are addressing is already covered under an existing thread (a thread is a ‘subject’ covered on the board), this helps to keep the discussion organized. Go to the existing thread and add your comments or
questions there.

After you write your comments, use the “preview” feature to see how it read and looks. This is important! This is the only chance you will have to edit your message. Once submitted you cannot change what you have written.

Blackboard is an integral part of this course and is available only to students enrolled in the course but is not a requirement for taking or passing the course.

Ranting at someone, being hostile or “flaming” is unacceptable. You will be denied access to Blackboard for flaming (a flame is a series of angry responses to someone’s comments).

Writing in all capital letters is equivalent to yelling and is unacceptable. ALL CAPS IMPLIES THAT YOU ARE SHOUTING – Do not do it.

Foul language, insults and harassment are not tolerated (just as it would not be tolerated in a face to face classroom). Any derogatory, offensive, or otherwise inappropriate comments are unacceptable and unprofessional. They will result in referral to the Nursing Standards Committee by Nursing Faculty or Nursing Programs Director.

Check in frequently, things may develop rapidly on a bulletin board. It is very easy to fall behind and feel overwhelmed by the number of posts you have to catch-up on!

Additional information related to netiquette can be found at Online Netiquette.com http://www.onlinenetiquette.com/netiquette_guide.html
In 1993 the Board of Nurse Examiners developed competencies to describe the expected outcomes for students at the time of graduation from the nursing programs. The criteria are the basis of the clinical evaluation tool for all clinical courses. The student must meet the criteria in order to progress to the next level in the nursing program.

To read these competencies as outlined by the state of Texas, visit:
1. BON.state.tx.us
2. Under Nursing Education Information
3. Go to Reports/Data
4. Differentiated Essential Competencies.

Licensure Application Information for Students Completing the Vocational Nursing Program, MEEP VN Option or the Associate Degree Nursing Program
Texas Board of Nursing (formerly called The BON)

All students successfully completing the requirements for Angelina College Nursing programs are eligible to sit for the National Council Licensure Examination (NCLEX-PN or NCLEX-RN) The student may go on line to www.ncsbn.org or www.BON.state.tx.us to find out the information regarding licensure, testing services, declaratory orders, or other questions regarding nursing students, nursing programs, or practice questions. Some general information regarding licensure is:

- All students attending an information session for the Angelina College Nursing Program are required to sign a form indicating they have read and understand § 301.252 & 253; §301.452-301.454 and § 304.001 of the Nurse Practice Act; Rules: 213.27-213.30 of the Rules and Regulations Relating to Professional Nurse Education, Licensure and Practice; Rules 217.11 and 217.12 of the Rules and Regulations relating to professional nurse Education, licensure and practice; and Declaratory Order Request Form.
- The student must have applied for a declaratory order for any eligibility issue. These issues include but are not limited to legal, psychiatric, drug or alcohol abuse.
- Licensure fees must be paid before the graduate can sit for the NCLEX. The fees change from year to year but include a licensure fee paid to the Texas Board of Nursing, a testing fee paid to the testing service (currently Pearson VUE) and fees for FBI background check as well as fingerprinting process.
Entry into practice of nursing in the United States and its territories is regulated by the licensing authorities within each jurisdiction. To ensure public protection, each jurisdiction requires a candidate for licensure to pass an examination that measures the competencies needed to perform safely and effectively. The National Council of State Boards of Nursing, Inc. develops the exam and uses three components: Cognitive ability based on Bloom’s Taxonomy; Nursing Process; Client Needs.

The multiple choice questions are based on the cognitive levels as described by Engelhart Bloom in 1956. The revised levels are:

- **Remembering**: Recalling information: recognizing, listing, describing, retrieving, naming, finding
- **Understanding**: Explaining ideas or concepts: interpreting, summarizing, paraphrasing, classifying, explaining
- **Applying**: Using information in another familiar situation: implementing, carrying out, using, executing
- **Analyzing**: Breaking information into parts to explore understandings and relationships: comparing, organizing, deconstructing, interrogating, finding
- **Evaluating**: Justifying a decision or course of action: checking, hypothesizing, critiquing, experimenting, judging
- **Creating**: Generating new ideas, products, or ways of viewing things: designing, constructing, planning, producing, inventing

The phases of the Nursing Process include:

**I. Assessment**: Establishing a database.
1. Gather objective and subjective information relative to the client.
2. Confirm data.
3. Communicate information gained in assessment.

**II. Analysis**: Identifying actual or potential healthcare needs and/or problems based on assessment.
1. Interpret data.
2. Formulate clients nursing diagnosis.
3. Communicate results of analysis.

**III. Planning**: Setting goals for meeting client needs and designing strategies to achieve these goals.
1. Prioritize nursing diagnoses.
2. Determine goals of care.
3. Formulate outcomes criteria for goals of care.
4. Develop plan of care and modify as necessary.
5. Collaborate with other healthcare team members when planning delivery of client’s care.
6. Communicate plan of care.

**IV. Implementation**: Initiating and completing actions necessary to accomplish the defined goals.
1. Organize and manage client’s care.
2. Counsel and teach client, significant others, and/or healthcare team members.
3. Provide care to achieve established goals of care.
4. Supervise and coordinate the delivery of client’s care provided by nursing personnel.
5. Communicate nursing interventions.
Evaluation: Determining the extent to which goals have been achieved and interventions have been successful.

1. Compare actual outcomes with expected outcomes of care.
2. Evaluate the client’s ability to implement self-care.
3. Evaluate healthcare team member’s abilities to implement client care.
4. Communicate evaluation findings.

Categories of Client Needs Are Described As Follows:

I. Safe, effective care environment - This category includes the client needs listed below:
   1. Coordinated care
   2. Environmental safety
   3. Safe and effective treatments and procedures

To meet client needs for a safe, effective care environment, the nurse should possess knowledge, skills and abilities that include but are not limited to the following areas:

Advance directives, basic principles of management, client rights, confidentiality, continuity of care, environmental and personal safety, expected outcomes of various treatment modalities, general and specific protective measures, informed consent, interpersonal communications, knowledge and use of special equipment, principles of teaching and learning, principles of quality improvement, principles of group dynamics, spread and control of infectious agents, staff education.

II. Physiological integrity - This category includes the client needs listed below:
   1. Physiological adaptation
   2. Reduction of risk potential
   3. Provision of basic care

To meet client needs for physiological integrity, the nurse should possess knowledge, skills and abilities that include but are not limited to the following areas:

Activities of daily living, body mechanics, comfort interventions, drug administration, effects of immobility, expected and unexpected responses to therapies, intrusive procedures, managing emergencies, normal body structure and function, nutritional therapies, pathophysiology, pharmacological actions, skin and wound care, use of special equipment.

III. Psychosocial integrity - This category includes the client needs listed below:
   1. Psychosocial adaptation
   2. Coping and/or adaptation

To meet client needs for psychosocial integrity, the nurse should possess knowledge, skills and abilities that include but are not limited to the following areas:

Accountability; behavior norms; chemical dependency; communication skills; community resources; cultural, religious, and spiritual influences on health; family systems; mental health concepts; principles of teaching and learning; psychodynamics of behavior; psychopathology; treatment modalities.

IV. Health Promotion and Maintenance - This category includes the client needs listed below:
   1. Continued growth and development through the life span
   2. Self-care and support systems
   3. Prevention and early treatment of disease

To meet client needs of health promotion and maintenance, the nurse should possess the knowledge, skills and abilities that include but are not limited to the following areas:

Adaptation to altered health states, birthing and parenting, communication skills, community resources, concepts of wellness, death and dying, disease prevention, family systems, family planning, growth and development including aging, healthcare screening, lifestyle choices, principles of immunity, principles of teaching and learning, reproduction and human sexuality.
In order to maintain student enrollment the following policy is instituted. The retention process will begin at orientation. Learning needs and obstacles to student success will be identified and addressed. Remediation of at risk students will include counseling, mentoring opportunities and help sessions. Educational resources such as computer assisted instruction modules, enhancers and exams, and additional instructional materials will be used to enable faculty to assess entry level knowledge, enhance faculty instruction, improve mastery of course objectives, and track student performance.

The Retention Specialist and/or a faculty member will be responsible for working with students on an individual basis. Students' needs will be identified by nursing faculty or Remediation Specialist and the student.

Any student who does not successfully pass an examination, must schedule a remediation session.

A student may be identified and required to be placed on mandatory remediation. Students will be held accountable for attending mandatory remediation sessions. If a student does not comply with the remediation guidelines/plan, he/she will be counseled and could be dropped from the program.

The Retention Specialist will maintain documentation of remediation appointments.

Students will be assessed using the Plan for Retention and Remediation of Nursing Students.

**PLAN FOR RETENTION AND REMEDIATION OF NURSING STUDENTS**

**STUDENT COUNSELING GUIDELINES**

Please read and follow the information below when counseling with students who have failed one or more nursing exams or have been identified as being at risk for failure of a nursing course.

1. Use the form entitled Remediation Plan.
2. Complete all student information including course name, number and exam number and exam grade received by the student
3. During counseling session with the student please, include under "summary of student study habits/circumstances" if the student meets any of the following risk factors:
   a. Concurrent enrollment in a science course
   b. Works full time or part time
   c. Has previously been identified to have a learning disability or special accommodation needs
   d. English as a second language
   e. Other concerns of student/faculty e.g. cultural barriers to learning
4. Check all steps recommended to the student for increasing academic performance and for recommended readings, audio or videos a title list will be given to the student.
5. Have student complete comment section reflecting their understanding and agreement to the plan confirmed by their signature.
6. Make a follow-up counseling appointment prior to the next exam, if needed.
7. Faculty please sign the form and provide a copy to the student and for the student's file. (See Attachment II Remediation Plan Form)

NURSING REMEDIATION PLAN

Student Name: ___________________________ Student ID#: ___________________________

Student has been counseled regarding the following exam grade(s) in course RNSG

Exam I Grade__________ Date__________ Exam III Grade__________ Date__________
Exam II Grade__________ Date__________ Exam IV Grade__________ Date__________

Summary of students study habits/circumstances contributing to low exam scores:

____________________________________________________________________________________
____________________________________________________________________________________

Services/Strategies recommended and discussed with student.

___Contact student support services (Please elaborate in faculty comment.)
___Discussed need for both active (Vocabulary, Key words, Key points) and focused reading (Text)
___Went over resources available to student and using for application of information.
    ___Adaptive Quizzing
    ___Evolve Resources
    ___Hesi
    ___Other: ________________________________
___Idea of joining/quitting a study group
___Completed a time management schedule
___Recommend reduction in work hours/schedule. ________________________________

Testing recommendations discussed with student.

___Anxiety lowering techniques
___Bring earplugs and wear headphone for noise distraction
___Test review
    __Course: __________________ Test #
        ___Based on student response feel student could use extra help with application and test taking strategy.
        ___Based on student response feel student is having most difficulty with knowledge of information being tested over.

TESTING ADMINISTRATION POLICY

Unit Exams

- Time for each question: 1 to 1½ minute per question, increased to five (5) minutes for calculations questions.

- Pencil and paper will be provided in the testing area for all exams. If calculations are included in the test items, simple (4 function) calculators may be used. No other calculators are allowed.

- Grades will be posted within five (5) working days. Any student who does not successfully pass an exam must follow the Remediation & Retention Policy.

- There will be a designated make up exam day each semester. Students will be notified of the date. Students must make a formal request to the Team Leader stating the course and exam missed prior to the make-up exam date.

- Time Frame and Procedure for Appealing:
  - Students who have questions about their exams and/or have concerns regarding testing procedures must submit their appeals in writing. This must be done within seven (7) days of test grades being posted.

Specialty Exam Policy (HESI/Evolve)

- The conversion score on the initial exam (first attempt) or second attempt, whichever is higher, for each specialty test will be 10% of the grade dissemination for the related theory course.

- Students with scores at or above the national average (Currently 850) will be deemed successful on any Specialty Tests or Exit exam and will continue on in the natural progression of the nursing program.

- A score below the national average (850) constitutes an unsuccessful exam score thus requiring remediation. The remediation plan must be followed in order to retake the exam. The remediation plan for the Specialty Tests is outline below.
  1.) Remediation will be specific to the area of weakness as defined by the Specialty Tests.
  2.) After review of the remediation material, the practice test (Evolve) related to the current subject will be taken. The student is responsible for bringing proof of successful completion of remediation to the faculty member administering the second test immediately prior to taking the exam.
  3.) If the student is successful on the second attempt, the student will follow the natural progression of the nursing program and the higher score will be recorded in the related theory class.
  4.) If the student is unsuccessful on the second attempt, the remediation as defined by the 2nd Specialty Exam must be completed and submitted to the Nursing Program Director. The higher score will still be recorded in the related theory class.

Exit Exam Policy

- Students scoring below the national average (currently 850) on the initial (first attempt) of the Exit exam must complete the targeted remediation as provided by Evolve (HESI).

- If the student is unsuccessful on the second attempt (850), the student will:
  1.) Enroll in and successfully complete a required designated remediation course.
  2.) The student will not receive a permit to practice as a GN.
  3.) The Affidavit of Graduation (AOG) will not be submitted to the Board of Nursing (BON) until the required remediation course has been successfully completed.
  4.) Once the student has successfully completed the required remediation, the AOG will be submitted to the BON.

Student Signature ____________________________ Date ____________________________
Faculty Signature __________________________________________ Date __________
**General Guidelines for Dosage Calculation Testing**

1. All medication calculation tests will be developed and administered by faculty teaching clinical courses(s).
2. The passing grade for all medication calculation tests is 90%.
3. All medication calculation tests will be given at a time and day established by the faculty. Students will be notified of the testing dates/times at the beginning of each semester. Simple (4 function) calculators may be used.
4. All students will be tested in the same or similar environment. No tests are to be administered in the clinical area.

**Level Based Policies**

Nursing Program

PROBATIONARY STATUS

A student will be placed on probationary status for a period of time as designated by the instructor and as stated in a written contract with the individual student. A student may be placed on probationary status only once during the entire program. If the identified behavior is not corrected by the deadline set by the instructor, or if the instructor and/or facility’s charge nurse, educator, preceptor(s), or director determines that the student did not improve enough to continue in the program, the student will be dismissed from the program. The following are examples of, but are not limited to, reasons why a student may be placed on probationary status:

1. Continually unprepared for activities.
2. Failure to complete a laboratory/skill check-off within three attempts.
3. Unprepared for lab and/or clinical.
4. Failure to complete paperwork and/or assignments on time.
5. Failure to remain on the assigned clinical unit.
6. Failure to appropriately communicate with patient or delivering unsafe care.
7. Failure to administer appropriate physiological or psychological patient care.
8. Failure to communicate effectively with the interdisciplinary team.
9. Failure to maintain a positive attitude.
10. Failure to exhibit critical thinking skills.
11. Failure to correctly perform learned skills in the clinical setting.
12. Failure to follow policies and/or procedures of the college and/or program.

(This includes but is not limited to; syllabi, college handbook, nursing program handbook, and student-faculty agreement.)

I have received, read, and understand probationary status.

Angelina College
Health Careers Division
STUDENT and FACULTY AGREEMENT

The Health Careers Division at Angelina College works diligently to provide quality educational opportunities for all students. Please read the following paragraphs to know what you should expect from your instructor, and what your instructor expects from you. To inform yourself of all policies, Angelina College and the Health Careers Division expects you to read and abide by the college catalogue, college handbook, and program handbook.

You should expect the following from the instructor:

• Inform you of class of course content, requirements and grading procedures, in writing, through the course syllabus. The course syllabus and handouts will contain information about tests and assignments; make-up policies; attendance policies; the instructor’s office hours and contact information, the method of determining the course grade, and SCANS competencies.
• Be available to meet with you, either before or after class, or by appointment.
• Discuss with you any problems that you have that relate to the course.
• Treat you with courtesy, even when there is disagreement.
• Be on time and prepared for class.
• Conduct him/herself in a professional manner at all times.

The instructor expects the following from you:

• Be in class 100% of the time. You may be dropped from the course due to attendance. Refer to the Program Attendance Policies. Distance Education and hybrid course students should see the course syllabus for specific attendance requirements.
• Be on time and prepared for class.
• Follow up on work you have missed. Arrange to make up missed work, if possible or if permitted.
• Behave appropriately in class. This means the following:
  o While the instructor is lecturing, there should be no talking to other students or use of cell phones
  o Leaving the classroom during class is not acceptable
  o You are expected to be in class on time. Refer to tardy policy.
  o Working on other course work during lecture or discussion time is not acceptable.
• Children are not allowed in class.
• Phones must be turned off while in class or lab. Refer to cell phone policy. No phones are permitted during testing in computer lab or simulation lab.
• Bringing food or drink into the classroom is not allowed unless prior approval is obtained.
• Sleeping and dozing in class is not permitted.
• Using derogatory or vulgar language is not permitted.
• Use of specified textbooks and other equipment are required for learning all the information.
• Rely on information given by instructor(s), not information from classmates.
• Check on grades often and discuss concerns early. Do not wait until the last week of semester to question grades.
• Seek the assistance of available student and tutoring services.
• Show respect and courtesy to instructors and classmates, even when there is a disagreement.

If you experience any problems with your class, please discuss the problem with your instructor and/or advisor. If the problem is not resolved, follow the chain of command and the complaint/grievance process.

_______
Posting of Grades
Grades will be posted in the learning management system. (Student initial __________)

Review of Records
I authorize the administrators of the Nursing Program to permit access to my records by official survey or research teams for accreditation or research purposes. (Student initial __________)

Release of Information
I authorize the Nursing Program to furnish all academic, disciplinary, attendance, credit, address, and all other pertinent information regarding my enrollment in the Nursing Program to prospective employers when requested. This release is effective until written notice is received by Angelina College to invalidate it. (Student initial __________)

Release from Liability
I acknowledge and understand that I may encounter certain risks while a student in the Nursing Program. I agree that I will in no way hold Angelina College or its faculty liable in the event of an accident or injury while I am on the grounds of clinical affiliates. I have read and understand the policy of Liability (Student initial ____)

Academic Dishonesty
I understand that academic dishonesty is a breach of the expected behavior of a healthcare professional and will not be tolerated in the Angelina College Nursing Program. I agree that I will not divulge any examination question(s) or answer(s) to any individual or entity, falsify or plagiarize any assignments or examinations, nor participate in any behavior that can be construed as misconduct. I also understand that obtaining test banks is academic dishonesty. I understand that if I violate any rule, policy or procedure of the Angelina College Nursing Program, I will be referred to the Nursing Standards Committee for disciplinary action. (Student initial __________)

Chemical Dependency Policy for Angelina College Nursing Program
I acknowledge that I have received a written copy of the "Alcohol and Drug" policy. I have read this policy and I understand that I am accountable for this information. (Student initial __________)

Drug Screening and Results
I authorize the release of information concerning the results of any drug test to Angelina College Health Careers Division, Nursing Program. My signature shall be deemed to be my consent to the release of information under the Family Education Rights and Privacy Act (FERPA) under HIPAA and any other federal or state act requiring consent for the release of all information concerning the results of such tests to Angelina College, its representatives, agents, and employees. (Student initial __________)

Distance Education
I agree to use follow the college’s Distance Education Policies and Procedure Manual found on the website. (Student initial __________)

Angelina College Nursing Program Handbook
I have been provided the Angelina College Nursing Program Handbook. I have read, understand, and will abide by all the information contained in the handbook. (Student initial __________)

I did ( ) did not ( ) participate in nursing orientation. Date of Orientation: ____________________________

Developed by K. Krichbaum, University of Minnesota School of Nursing, from K. Bondy (1983), Criterion-referenced definitions for rating scales in clinical evaluation, *Journal of Nursing Education*, 22(9), 376-82. (Revised 1999)

HEALTHCAREERS DIVISION
POLICY AND PROCEDURE
CELL PHONE USAGE

Objective: To create an uninterrupted learning environment for all students.

Purpose: Prohibit the use of cell phones during all classes, campus laboratories, and clinical settings (i.e. hospitals, doctor’s offices, community settings, and other facilities).

POLICY

Health Careers Division faculty and staff will be consistent with the corrective actions taken to prohibit the use of cell phones during class, laboratory, and clinical settings.

During classroom/didactic and laboratory settings, cell phones are to be turned off and out of sight, eliminating disruptions.

Students are prohibited from carrying and/or using cell phones during clinical hours.
During clinical hours, cell phones are to be left in vehicle and not to be found on student.

During test, whether in classroom or computer lab, students are prohibited to carry and/or use cell phones.

PROCEDURE: Classroom and Laboratory Setting

- First consequence – verbal warning, with student being dismissed from class and may return at break (if student chooses to leave, then it will be counted as an absence). Absences will be documented and cumulative.

- Second consequence – student will be dismissed from class with an absence. Absences will be documented and cumulative.

- Third and subsequent consequences – 5 points will be deducted for each incident from final average of that course(s).

PROCEDURE: Clinical Setting

- Student will be dismissed from clinical with an absence for each incident. Absences will be documented and cumulative.

I fully understand this policy and procedure and will comply.
