The College will follow existing Board of Trustees policies with regard to assigning a grade for College credit in the dual credit courses, if the College grading scale differs from the District's grading scale, the District will provide participating students with a comparative document displaying both the College grading scale and the District's grading scale.
8. Although a student may pass a College class with a grade of D, the District will be responsible for communicating to students and parents that under 19 TAC § 74.26(c), credit for courses for high school graduation may be earned only if the student received a grade which is the equivalent of 70 on a scale of 100.

Dual credit students taking classes in-person on any College Campus must provide proof of the meningitis vaccination.
- B. Students who are enrolled in private or non-accredited secondary schools, or who are home-schooled must meet all admission requirements set forth in this Agreement.

Section 4. Classes and Schedules

- A. Prior to the start of each semester, the College will coordinate and finalize the proposed course schedule with the District in a timely manner.
- B. All high school students enrolled in a College academic dual credit class will follow the official College calendar regardless of dual credit class location, course instructional modality, or District calendar. Neither the College nor the District shall cancel a class unless absolutely necessary. The cancellations shall be processed through the District administration upon consultation between the appropriate representatives of the District and the College. If deemed necessary by the College, lost instructional time shall be made up by arrangement with the District.
- C. A student participating in the Dual Credit Program may take the number of academic classes permitted by Applicable Law for dual credit only if the student meets the College's success standard.
- D. Academic dual credit courses must be taught in classes composed solely of academic dual credit students. In the case of technical classes being approved as an articulated course, the dual credit class can include a combination of technical dual credit students, college credit students, and/or local articulation students.

- E. In order for the College to provide face-to-face instruction for an academic dual credit course on the School's or another high school campus, which campus must be within a reasonable commuting distance from a College campus, a minimum class size number will be required. The Parties agree that the minimum number of students for a dual credit course in which the instructor is to provide face-to-face instruction may be composed of students from the District as well as one or more other school districts or educational institutions. If there are fewer than the minimum number of students required, the College Director of Dual Credit Programs will confer with the District's dual credit representative to explore instructional alternatives.

Section 5. Instructors

- A. The College will approve or select qualified instructors to teach the courses that result in the awarding of dual credit. An instructor is qualified if he or she meets the requirements set forth in Section 130.008(g) of the TEC and other Applicable Law (including, but not limited to SACSCOC Comprehensive Standard 3.7.1 of the Principles of Accreditation and Angelina College's Faculty Credentialing Guidelines). Each dual credit instructor who is a District employee or is not otherwise a College employee will be required to follow the same hiring procedures as any College faculty member, which would include, without limitation, completing an application, interviewing, credentialing review, and undergoing a background check.
- B. The faculty teaching dual credit courses will be compensated in accordance with the Angelina College salary schedule as defined for part-time instructors or as otherwise agreed.
- C. The College's academic dean as applicable to the specific dual credit course being provided will have the responsibility for the oversight, supervision, administration, and evaluation of the instructional delivery provided by each instructor teaching a dual credit course under this Agreement, whether such instruction is delivered at a College facility, a District classroom, or another location. The oversight, supervision, administration, and evaluation by the College's academic deans will be in accordance with College instructional policies and procedures as applicable to the course being taught. The responsibilities set forth in this Section does not alter that employment status of any Party's personnel, create liability for either Party, or negate the requirement of an employee of either the College or the District to comply with the policies of that employee's employer.

Section 6. Tuition

- A. Students enrolled in dual credit courses under the Dual Credit Program and/or the District will pay tuition net of any institutional allowance or state aid.
 - 1. College will charge the same rates for Fees for Dual Credit courses as set by the College's Board of Trustees for all College courses or as otherwise agreed
 - 2. During the Term (as hereinafter defined) of this Agreement, the credit hour tuition and fees are subject to change as enacted by the College's Board of Trustees.

Section 8. Curriculum and Textbooks

- A. In accordance with THECB regulations, Dual Credit instruction follows the same curriculum, materials, grading, and rigor used in the same class taught at the College to non-dual credit College students. The College's Academic Deans, Assistant Deans and Department Heads, through continual monitoring, assure the

integrity and rigor of the curriculum in all sections of their discipline or program, both for courses taught as part of the Dual Credit Program and the non-dual credit courses.

- B. The College will use the same textbooks for courses taught as part of the Dual Credit Program as the ones used for the identical on-campus course or an equivalent textbook approved by the College. Students or the District, at their cost, are responsible for the procurement of their textbooks.

Section 9. Student Services

- A. The College will provide adequate instructional support services, as determined in its discretion, including advising, to meet the needs of dual credit students. The College may work in conjunction with the District to improve student access to key services.

Circulation privileges and other services available to students and instructors who are part of the Dual Credit Program are identical to those provided to students and instructors not participating in the Dual Credit Program.
- C. Dual credit students may use the computer labs, tutoring center, and other related resources on the College campuses.

Section 10. Funding and Payment

- A. Tuition and fee payments in the amounts set forth in Section 5 are due from students at registration. A payment plan is available upon request. Payment is required by the stated due date; all tuition and fees must be collected and remitted to the College prior to the beginning of classes. Failure to pay by the due date will result in the student being dropped from classes.
- B. The state funding for dual credit courses will be available to both the District and the College based on the current funding rules of TEA and the THECB. The College may only claim funding for students receiving college credit in core curriculum, career and technical education, and foreign language dual credit courses.
- C. If a student requests to take a class more than twice, he or she will be responsible for the tuition for that course.

- A. **Term.** The Term of this Agreement shall commence upon the Effective Date (“Commencement Date”) and shall expire on the last day of the second summer semester of _____ (“Expiration Date”). Notwithstanding the foregoing, both Parties acknowledge and agree that, where necessary, a condition precedent to a Party’s signing the Agreement is approval of the Agreement by that Party’s governing board. The time period between the Commencement Date and the Expiration Date shall be referred to as the “Initial Term.” Upon mutual written agreement by the Parties and approval as may be required by the Parties’ governing boards, this Agreement may be extended for a renewal term (“Renewal Term”). As used in this Agreement, the term “Term” shall mean the Initial Term, the Initial Term as may be extended by the Renewal Term, or such shorter period of time in the event of termination of this Agreement as set forth herein.

Angelina College Board Policy Manual EGA (Local)

This Appendix A is attached to and incorporated into the Angelina College Dual Credit Program Agreement ("Agreement") between the Parties (as that term is defined in the Agreement). Any capitalized term used in this Appendix that is not otherwise defined herein shall have the meaning set forth in the Agreement or in the Angelina College policies.

SECTION ONE: GENERAL PRINCIPLES

1.01 Purpose of Grades

The final course grade should reflect an accurate evaluation of the student's understanding of course material, cumulative performance on required tasks and assignments, and achievement of intended learning outcomes. The college encourages faculty to provide graded feedback to students throughout each semester so that students can gauge their academic performance and their understanding of course content.

1.02 System for Grading

At the conclusion of each term, faculty calculate a final grade for each student, enter the final grade in the college's online system, and record the final grade for each student in a grade book for each section they teach in the term. Faculty are required to enter final grades in the college's online system by the deadline for each term published in the college's academic calendar. Students may view the final grade they earned in each course section by logging into the college's online system after the grade posting deadline. The college does not issue grade reports to students. Faculty submit all grade books for the term to the Registrar and to the Associate Dean of Instruction to whom the faculty member reports. The Registrar is responsible for posting each grade to each student's college transcript.

1.03 Description of Grades

The following grades may be assigned by faculty:

- A Excellent
- B Good
- C Average
- D Minimum passing
- F Failure
- I Incomplete college-level course (see process below)
- IP In Progress developmental course
- P/F Pass or Fail
- W Withdraw
- Au Audit

Each course syllabus will document the methodology the faculty member will use to determine the final grade, and the score or points the student must earn to achieve each letter grade. The numerical ranges are established by the instructors and/or the divisions.

The college designates a limited number of courses, typically developmental support courses, as "pass/fail" courses. The college will not calculate a "P/F" grade as hours attempted when calculating grade point average.

1.04 Withdrawal

In order to withdraw from a course and receive a "W" grade, a student must contact the Office of Enrollment Services. When a student withdraws from a class after the census date but before the last day to withdraw as indicated on the college's academic calendar, the Registrar will enter a "W" grade on the student's transcript.

Faculty may administratively withdraw a student from a class section if the student fails to participate and/or to attend the course by contacting the Office of Enrollment Services. The Office will direct the faculty member to complete necessary documentation, including the student's last date of attendance.

SECTION TWO: INCOMPLETE AND IN-PROGRESS GRADES

2.01 Incomplete Grade

For college-level courses, the “I” grade indicates that extenuating circumstances beyond the control of the student have prevented the student from completing the required course assignments during the term, and that the student has completed at least 75 percent of the required course assignments with a passing grade as defined in the course syllabus.

When the college authorizes an “I” grade, the student must complete the incomplete work for the course by the end of the next long term, or within a timeframe specified by the instructor and approved by the Associate Dean of Instruction. Failure to complete the work during the prescribed time may result in a failing grade for the course. The college will calculate the “I” grade as hours attempted in computing the student’s grade point average.

2.02 Incomplete Grade Process

The following steps are necessary when an “I” grade is warranted.

1. Student informs faculty member of extenuating circumstances beyond the student’s control that prevent the student from completing the course with a passing grade.
2. Faculty member determines if the circumstances described by the student are significant enough to prevent the student from completing the course and are beyond the control of the student.
3. If the faculty member determines the circumstances are significant enough and beyond the control of the student, the faculty member calculates (a) the percentage of the total work required in the course that the student has completed, (b) the cumulative grade the student has earned on completed course work to date, and (c) the reasonable timeframe the student will have to complete the coursework.
4. After completing steps 2 and 3, if the faculty member determines the student may be eligible to receive an “I” grade, the faculty member will submit a written request to his/her Associate Dean of Instruction for authorization to award the “I” grade. The request should include a description of the steps 2 and 3, as well as a detailed description of the course work that the student will need to complete for the course.
5. After reviewing the faculty member’s request, the Associate Dean of Instruction may approve or deny the “I” grade in writing to the faculty member, the student, and the Registrar.
6. It is the responsibility of the student to complete the course work within the required timeframe allowing for adequate time for the faculty member to grade the assignments.
7. The faculty member submits the student’s final grade within the timeframe required by this policy.

2.03 “In Progress” Grade

An “IP” grade indicates the student has earned less than a “C” grade in a developmental course, but has demonstrated a good faith effort in terms of course meeting attendance, assignment completion, and engagement in classroom activities. The student must repeat the developmental course in which an “IP” grade was assigned and earn a passing grade in the course to progress to college-level courses or the next developmental course. The student may also progress by re-taking the Texas Success Initiative (TSI) examination and earning a passing score at any time.

SECTION THREE: GRADE POINT AVERAGE

3.01 Grade Point Average

The student’s grade point average (GPA) is significant in determining eligibility for continued financial aid, for continuance in school, for acceptance at a transfer institution, for graduation, and eventually for employment after completion of a formal education. Grade points are granted for all courses, with the exception of developmental courses, on the basis of the value in semester credit hours for the course and the grade earned as follows:

- A 4 grade points per semester hour
- B 3 grade points per semester hour
- C 2 grade points per semester hour
- D 1 grade points per semester hour
- F, I, P/F 0 grade points

3.02 Special Circumstances

When a course is repeated, the most recent grade earned is the effective grade for calculating grade point average. All developmental courses posted to a student’s permanent record will be designated by brackets in the credit earned and grade point columns. While a grade will be shown for each developmental course taken, the grade will not be included in the cumulative grade point average calculation. Developmental courses may not be used to satisfy degree requirements.

3.03 Grade Appeal

The College recognizes a student's right to consistent and relevant forms of assessment and grading. Academic grievances involving assignment grading should be discussed with the course instructor. A grade appeal is a written request submitted by a student to change a course grade (not an assignment grade) for a legitimate reason. **Students have four (4) calendar months from the date the course grade was posted by the faculty member to submit a grade appeal.** Typically, a course grade may only be changed by the instructor of record. Should the employment of an instructor of record end and/or that instructor become incapacitated or unavailable to consider a grade appeal, the Associate Dean of Instruction responsible for the academic division in which the course is offered or the Vice President of Academic Affairs have the authority to change a course grade if appropriate. "Incapacity" means the physical or mental inability to enter grades for the purposes of this subsection only.

3.03.1 Basis for Grade Appeal.

An appeal will not be considered merely because a student is dissatisfied with a grade or disagrees with the instructor's professional judgment of the quality of the student's work or performance. When filing a grade appeal, the student must document credible evidence of one of the three conditions:

1. a mathematical error in the course grade's calculation,
2. a deviation—by the instructor—from the course syllabus or the College's policy manual (this document), or
3. the faculty member's decision when assigning the course grade was arbitrary, capricious or prejudicial.

"Arbitrary" means no reasonable factual basis for reaching the conclusion or taking the action. "Capricious" means unpredictable and subject to whim. "Prejudicial" means irrational attitude of hostility directed against an individual, which does not include hostility on the basis of any legally protected status. **If a student believes a course grade involved illegal discrimination, harassment, or retaliation, the college encourages the student to file a complaint as described in Regulation FFD.** Any basis for grade appeal outside of the three conditions listed above or of illegal discrimination, harassment, or retaliation will not be considered, and the College will inform the student of this policy and refuse to process the appeal.

3.03.2 Grade Appeal Process.

When a student has credible evidence that one of the conditions described above influenced an assigned course grade, the student should initiate the following procedure within four months after the course grade was posted.

Step One: Using the college's Student Complaint and Appeal Form (see *FLD Exhibit* in this manual), submit a written request for the instructor of record for the course section in which the student was enrolled to review the grade. The student should provide credible evidence that he/she believes establishes that one of the three conditions exist. The instructor of record shall respond to the student in writing within five (5) days of receiving the appeal.

Step Two: If the instructor of record denies the student's appeal, the student may use the Student Complaint and Appeal Form to appeal to the appropriate Associate Dean of Instruction. The student should provide credible evidence that he/she believes establishes that one of the three conditions exist.

APPENDIX B

Interactive Video Class Regulations

This Appendix B is attached to and incorporated into the Angelina College Dual Credit Program Agreement ("Agreement") between the Parties (as that term is defined in the Agreement). Any capitalized term used in this Appendix that is not otherwise defined herein shall have the meaning set forth in the Agreement or in the Angelina College Board policies and procedures.

The College is pleased to work with area high schools, the District, and Education Service Centers VI and XIII to offer college credit courses to high school students via interactive video conferencing (IVC) and will seek every opportunity to use the available technology to deliver courses to off-campus sites. In order to ensure the highest quality education possible using this technology, the following items must be agreed to by the parties involved.

Determining Appropriateness of Interactive Modality

The College and District representatives shall reach a consensus to determine whether interactive video is an appropriate means to offer a course.

The College will retain final authority as to the instructional modality used (traditional or IVC) depending on course enrollment and the appropriateness of the equipment and room configuration at the District site. Modification to room location or room configurations shall be agreed to in writing, and the modifications shall be completed by the first day of instruction. Any expenses incurred shall be paid by the District.

Class Size and Scheduling

The number of sites in a combined class shall be limited to a total of three sites, including the originating site. The total number of students at all sites shall not exceed the class limits of a traditional class in the same subject at the College.

To determine how many students a remote site can reasonably accommodate, an assessment of the room layout and equipment will be made by a member of the College's Distance Education program.

Classes will be scheduled and held according to the College's calendar.

Site Facilitators and Technical Support

Site facilitators or technical personnel must be available before the beginning of each class session to initiate and test the connection to the Educational Service Center and the College.

Each District shall provide an adult site facilitator in the room during the entire class period to monitor class activities, including exams. Each District shall assume the costs of the site facilitators and technical support technicians.

Technical support staff must be on site (not necessarily in the classroom) to assist in resolving technical problems. Site facilitators must have access to a fax machine.

There will be a central point of contact designated at the District. The College's central point of contact for classes conducted via IVC will be designated by the College's Distance Education office.

The College shall pay for mailings originating from Angelina College; the District shall assume costs of mailings originating from the District.

Telecommunication Requirements

Each District shall pay for its T1 and other telecommunication fees, including Educational Service Center fees, and shall be responsible for providing and maintaining its own equipment and connection to the Educational Service Centers. The District shall be responsible for maintaining its T1 lines. There must be a separate dedicated telephone line with access to long distance and a speakerphone in each interactive classroom. A working document camera must be available for use for each class session.
