

## Welding Pathway 2

*School of Business and Technology*

### Career Opportunities

A certified welder can work in a variety of industries such as fabrication, manufacturing, pipeline production, facility maintenance, and in refineries.

### Advanced Degree and Certificate Opportunities

This pathway stacks three credentials and allows students to obtain one credential at a time and to work in their chosen field sooner.

### Marketable Skills

Ability to work independently and with others, interpersonal skills, communication in writing and verbally, listen critically, demonstrate leadership, conceptualize problems, see problems from a variety of perspectives, and analyze and solve problems systematically and logically
