

ANGELINA COLLEGE INSTRUCTIONS FOR HAZARDOUS WASTE SATELLITE ACCUMULATION AREAS	
NO. EI-03 6.3.c	TITLE: Hazardous Waste Satellite Accumulation Areas PAGE 1 of 1 ISSUED: 11/2012 REVISED: 02/2024

RULES:

1. Always wear appropriate chemical-resistant gloves when handling hazardous waste.
2. Always wear ANSI-approved chemical-resistant goggles when handling hazardous waste.
3. Never handle any hazardous waste until you have successfully completed the Hazardous Waste Handling Class.
4. Hazardous waste containers must remain closed at all times, except when filling.

INSTRUCTIONS:

1. Carefully pour hazardous waste into appropriate storage container. The container must be clearly labeled "**Hazardous Waste**".
2. Fill out the hazardous waste log with the name of the chemical and the approximate volume whenever adding chemicals into a hazardous waste container.
3. All hazardous waste containers must be placed in appropriate secondary containment.
4. Hazardous waste containers must be visually inspected monthly by the Responsible Party for that Satellite Accumulation Area and an inspection log maintained.
5. When the bottle is full, the Responsible Party should contact maintenance within 3 days for pickup.

IN CASE OF EMERGENCY:

If a hazardous material leak occurs, call Physical Plant Director at (936) 633-5280 (or 24-hour Police cell phone at 936-676-2563). If there is a hazardous materials spill, call the Physical Plant Director and EVACUATE THE BUILDING IMMEDIATELY.
