1	Some courses were absolutely unable to be completed in an 8 week course. I am having to drop A&P due to it being far too much information to retain in such a brief time. Cramming this kind of information is going to lead to a huge loss of academic success when faced with these important elements needed for other classes, programs, and even careers. When you cram, you forget. Some courses are great in an 8 week, i've done others but this course is a lab and a lecture in 8 weeks... its too much unless taken by itself.	4/6/2023 12:29 AM
