Theater

The Theater Arts Program is designed to prepare students for employment as entry-level technicians and actors in professional theater. The program provides students with the knowledge and skills to continue their education at both university and conservatory programs, as well as bachelor's degrees leading to secondary and college-level theater education. Workplace basic skills are integrated throughout the curriculum, providing students with instruction in the basics of backstage duties, responsibilities, and design. The program will also provide ample acting opportunities and course instruction for the beginning actor.

Program Learning Outcomes (PLO)

PLO 1: Demonstrate their comprehension of the basic backstage tasks involved in production.

PLO 2: Demonstrate their comprehension of backstage job responsibilities within the standard theatrical hierarchy of duties during production.

PLO 3: Demonstrate comprehension of the rehearsal process.

PLO 4: Perform an acting monologue to demonstrate basic acting skills.
