To the Taxpayers of Angelina County, the Citizens of Angelina College Service Area, the Members of the Board of Trustees, and the President:

We are pleased to present the following annual financial report (AFR) of Angelina College (the College) for the fiscal year ended August 31, 2025 and 2024. Responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the management of the College. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to fairly present the financial position and results of operations of the College. All disclosures necessary to enable the reader to gain an understanding of the College's financial activities have been included.

The financial statements were prepared in accordance with U.S. Generally Accepted Accounting Principles (GAAP) and follow any applicable Government Accounting Standards Board (GASB) pronouncements. The independent accounting firm of Axley & Rode, LLP conducted the audit of the financial statements and related notes in conformance with U.S. generally accepted auditing standards, Government Auditing Standards issued by the Comptroller General of the United States, and state statutes. The independent auditor's report on MD&A, the basic financial statements, and other supplemental financial information is included within the financial section of this report. The independent auditor's report issued in accordance with Government Auditing Standards is in the single audit section of this report.

As a recipient of federal and state awards, the audit was also designed to meet any requirements set forth by Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance) and the State of Texas Single Audit Circular. The College is responsible for maintaining adequate internal control over compliance with applicable laws and regulations related to these programs. Internal controls are designed to provide reasonable, rather than absolute, assurances that the financial statements are free of any material misstatements. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits derived. The auditor considered the internal controls over financial reporting, as well as adherence to applicable laws and regulations, and did not identify any material weaknesses in internal control. The report can be found within the single audit section of this report.

Profile of the District

Angelina College was established as a public community college under the laws of the State of Texas by election on September 24, 1966. It is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award the following degrees: Associate in Arts, Associate in Science, Associate in Applied Science, and certificates. The College's five educational divisions (Arts and Education, Science and Math, Business and Technology Workforce, Health Careers, and Community Services) offer over 65 different areas of study. Course work includes not only credit-type courses, but also certificate programs in multiple areas to provide for the educational needs of the local communities.

The College is governed by a seven member, locally elected, Board of Trustees and services 12 counties in East Texas encompassing over 10,200 square miles. The service area, as defined by the Texas Legislature, includes all of Angelina, Houston, Nacogdoches, Polk, Sabine, San Augustine, Trinity, and Tyler counties. Also included are parts of Cherokee (Wells & Alto ISDs), Newton (Burkeville & Newton ISDs), Jasper (Colmesneil & Jasper ISDs), and San Jacinto (Shepherd & Coldspring- Oakhurst Consolidated ISDs) counties. Portions of Brookeland ISD located in Jasper and Newton counties are also included in the College's service area.

The College's main campus is located on over 230 wooded acres in Lufkin, Texas. Classes are also offered at various off- campus teaching sites including the Polk County Center in Livingston, and several area high schools and local community sites. In addition to in-person instruction, courses are offered online, via synchronous or asynchronous instruction, and via hybrid/blended, a mix of in-person and online instruction. The student body is comprised of over 4,600 credit students and 5,000 community service students. In addition to instructional programs, the College has multiple opportunities for students to become involved in college life experiences through 25 student clubs and organizations, fine arts activities, and intercollegiate athletic programs.

Mission and Goals

The mission of Angelina College is "to provide quality educational opportunities and services to aid students in the service area in reaching their full potential".

This mission is exemplified by these five goals as stated in the College's strategic plan:

- **Goal One:** Grow the Institution's Capacity and Effectiveness at Delivering Online Education
- **Goal Two:** Monitor the Changing Higher Education Environment and Adopt Best Practices to Improve the Curriculum, Pedagogy, Delivery, Modality, and Institutional Efficiency and Effectiveness
- **Goal Three:** Invest in the Professional Development of full-time and Adjunct Instructors by Developing a Calculus for Instructional Efficacy at the Individual Instructor Level and Deploying In-House Training to Grow the Proficiency of Each Instructor
- **Goal Four:** Develop and Update as Necessary Instructional Technology Standards for Instructors as well as Internal Training and Support Programming to Help Instructors Meet the Standards
- **Goal Five:** Develop the Institution's Capacity to Collect and Use Initiative Performance Data and to Engage in Continuous Improvement of Retention and Completion Initiatives
- **Goal Six:** Develop an Approach to Dual Credit Offerings that Leverages Pathways Identified by the College to Facilitate Certificate or Degree Completion and/or Results in Enrollment in AC after High School Graduation
- **Goal Seven:** Manage Resources in a Prudent Manner While Investing to Enhance Educational Offerings and the Physical Environment to Meet Student and Community Needs and Expectations
- **Goal Eight:** Develop Expertise and Programming to Recruit, Serve and Support Students in Poverty, International Students, African-American Males, and Latino/a Students
- **Goal Nine:** Provide Programs and Services to Support Learners' Career and Personal Enrichment Goals, to Meet the Human Capital Needs of Employers, to Contribute to the Social and Cultural Environment of the Region, and to Support Economic Development in the College's Service Area

Financial Condition

The population of the College's service area has remained constant over the last ten years. Similarly, the College's full-time student equivalent has also remained level over the same time period, but has fluctuated on a year over year basis. In the coming years, the College expects enrollment to remain stable as students continue to take advantage of the low cost but high-quality education of community colleges.

Another major source of revenue for the College is property taxes. Angelina County's tax base has increased slightly over the last ten years and is anticipated to increase slightly in the upcoming years.

One of the challenges community colleges are facing is being able to meet educational demands under the continued pressure of level or reduced state funding. Cost-saving measures, additional tuition and increased property tax revenue have enabled the College to balance these demands against decreases in state appropriations but it is a continuing concern, which may influence future budgets and educational programs.

Long-Term Planning

The Board's long-range planning committee provides leadership and guidance in developing the College's long-term goals and strategic plans. The committee reviews educational programs, student activities, fiscal needs, and facilities to meet the future needs of the College and community. The College's present plan is detailed in the Angelina College Long-Range Plan 2020 to 2040.

The College also has a multi-year renewal and replacement plan, which addresses the deferred maintenance needs of the College, and a Long-Range Facilities Master Plan, which addresses new construction projects and renovation projects to ensure the long-term viability of the College's facilities.

Budgetary Process

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenses for the fiscal year beginning September 1. Program needs are balanced against available resources in preparing the budget to ensure that the College remains fiscally sound and stable. The budget is subsequently reviewed and approved by the College's Board of Trustees. During the year, the financial impact of College expenditures is monitored through a system of budget controls to adhere to legal provisions embodied in the annual appropriated budget and to maintain a balanced budget.

Acknowledgements

We would like to express our appreciation to the staff of the College's business office for their hard work in preparing this report and to the accounting firm of Carr, Riggs & Ingram for their timely completion of the audit.

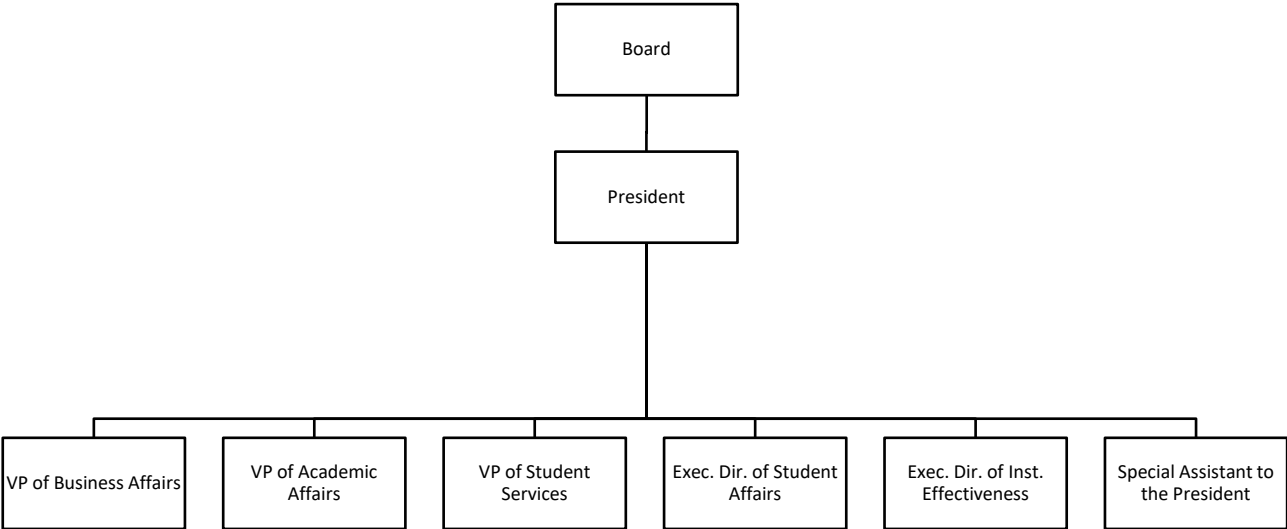

We would also like to thank the College President and Board of Trustees for providing their outstanding leadership and vision for the College.

Respectfully submitted,

Chris Sullivan, Vice President of Business Affairs

INDEPENDENT AUDITOR'S REPORT

Angelina County Junior College

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Angelina County Junior College District ("the College"), as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of Angelina County Junior College District, as of August 31, 2025, and the respective changes in financial position, and cash flows, thereof for the years then ended in accordance with accounting principles general accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the College and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

The financial statements of Angelina County Junior College District for the year ended August 31, 2024 were audited by another auditor who expressed an unmodified opinion on those financial statements on December 6, 2024.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* that will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the College's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information schedules be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The introductory section and supplemental financial information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal and state awards is presented for purposes of additional analysis as required by Title 2, U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements for Federal Awards, and Texas Single Audit Circular and State and is also not a required part of the basic financial statements. The accompanying other supplementary information is presented for purposes of additional analysis and is also not a required part of the basic financial statements.

The supplementary financial section and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 29, 2025, on our consideration of Angelina County Junior College District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Angelina County Junior College District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Angelina County Junior College District's internal control over financial reporting and compliance.

August 31, 2025

The management of Angelina College (the College) has prepared the following Management's Discussion and Analysis. As management of the College, we offer readers of the financial statements this narrative overview and analysis of the financial activities of the College for the fiscal years ended August 31, 2025 and 2024. The information presented should be read in conjunction with additional information we have furnished in our letter of transmittal, which precedes this report, as well as the financial statements and the accompanying notes to the financial statements, which follow this section. Responsibility for the completeness and fairness of this information rests with the preparers.

Basic Financial Statements

The annual financial report consists of three basic financial statements that provide information on the College as a whole: The Statement of Net Position; the Statement of Revenues, Expenses, and Changes in Net Position; and the Statement of Cash Flows. The financial statements are designed to provide readers with a broad overview of Angelina College's finances in a manner comparable to those of a private sector college. The following information is intended to provide an overview of these statements.

Statement of Net Position

The Statement of Net Position presents current assets (unrestricted assets expected to provide support within a year), noncurrent assets (restricted assets expected to provide long-term benefit to the College), deferred outflows of resources (a consumption of net position that applies to a future period), current liabilities (obligations which must be met within the current year), noncurrent liabilities (obligations which are not to be settled in the current year), and deferred inflows of resources (an acquisition of net position that applies to a future period). The difference is reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the College is improving or deteriorating.

Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position presents information showing how the College's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Statement of Cash Flows

The Statement of Cash Flows is reported on the direct method. The direct method of cash flow reporting portrays net cash flows from operations as major classes of operating receipts (e.g. receipts from students and other customers) and disbursements (e.g. payments to or on behalf of employees). GASB Statements No. 34 and 35 require this method to be used. The primary purpose of cash flow analysis is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also may help users assess the College's ability to generate future net cash flows, to meet its obligations as they come due, and to determine its need for external financing.

The college increased its total net position for the fiscal year by 3,006,957 (7.43%). Cash increased by 3,292,046 (10.13%) as accounts receivable balances decreased by \$1,444,708 (17.42%) as a result of an increase in cash received from the prior year. Other assets increased \$198,307 (95.43%) from prepaid expenses at year end. Deferred inflows, outflows and net liabilities for OPEB and pensions are subject to large changes as the state discount rates and assumptions change. Deferred inflows decreased by \$1,777,446 (21.98%) as a result of these changes. Unrestricted funds decreased by \$1,932,753 (29.97%) from operations for the year and interfund transfers, which impact the fund categories but have no effect on the overall net position.

Operating revenues include all transactions that result from providing services related to the College's principal ongoing business activities such as tuition and fees, and sales from bookstore operations. In addition, certain federal, state, and private grants are considered operating revenue if they are not for capital purposes and are considered a contract for services.

ANGELINA COLLEGE
Management Discussion and Analysis

Operating revenues decreased slightly by \$340,034 (4.16%) compared to the prior year primarily due to an increase in scholarships and scholarship discounts and allowances. Non-governmental grants increased by 332.85% or \$351,776 compared to the prior year. These amounts include various private grants that do not fall under the federal or state categories. Federal grants excluding pell decreased by \$65,644 (3.45%) compared to the prior year. State grants increased by \$395,386 (33.65%). The grants and amounts making up the federal and state grants can be found in Schedules E and F.

Non-operating revenues increased \$4,829,239 (14.35%) compared to last year, primarily due to an increase in tax revenues, state appropriations and federal revenues from pell grants. Funding from the state is dependent on student completion rates and other outcome related metrics. The college improved its metrics compared to the prior year and received more state funding as a result. Ad valorem tax revenues for maintenance and operations increased from the prior year due to the increase in assessed property values in Angelina County.

Analysis of Cash Flows

	2025	2024	\$ Difference Current Year and Prior Year	% Difference Current Year and Previous Year

Capital Assets and Long-Term Debt

	2025	2024	\$ Difference Current Year and Prior Year	% Difference Current Year and Previous Year
Buildings and improvements	\$ 37,284,079	\$ 37,635,647	\$ (351,568)	(0.93%)
Land and land improvements	2,238,353	2,119,230	119,123	5.62%

Furniture, machinery, and equipment	3,714,936	3,672,268	42,668	1.16%
Right-to-Use Subscription Asset	1,092,846	1,655,483	(562,637)	(33.99%)
Construction in progress	1,204,481	1,399,605	(195,124)	(13.94%)
TOTAL	\$ 45,699,035	\$ 46,645,182	\$ (946,147)	(2.03%)

Cash increases for the year were largely from non-capital financing activities, which include state appropriations and ad valorem tax revenues. Cash used by operating activities decreased slightly due to an increase in receipts from grants and contracts and a reduction in budget and lower cash outlay for supplies.

Net capital asset additions for the year decreased by \$946,147 compared to last year as renovations have slowed. The college completed major renovations and improvements to the parking lot and entrance to the campus. Fiber cable was upgraded and installed. The Liberal Arts and Social and Behavioral Sciences buildings' roof replacement was completed during the fiscal year. Hudgins Hall, Community Services and the Student Center interiors were renovated.

Capital assets represent approximately 51% of the college's assets and including depreciation net assets decreased by \$946,147 compared to the prior year. Furniture, machinery and equipment spending was comparable to the previous year. The decrease of \$562,637 for right-to-use subscription assets was the result of amortization for the year.

Detailed information about the College's capital assets can be found in Note 7 - Capital Assets. In addition, detailed information about the College's long-term debt can be found in Note 8 - Long-Term Liabilities, Note 9 - Debt Obligations, Note 10 - Bonds and Notes Payable and Note 11 - Advance Refunding Bonds.

Other Conditions and Factors

The challenge for Angelina College and for other Texas community colleges is trying to meet the expanding educational needs of the community with limited funding. The College's diverse revenue base of state appropriations, ad valorem tax collections, and tuition and fee revenues has lessened the impact of variations in these funding sources but additional cuts in state appropriations could adversely affect future operations.

Note 1 Reporting Entity

Angelina College (the College) was established in 1966, in accordance with the laws of the State of Texas, to serve the educational needs of Angelina and the surrounding counties. Angelina College is considered a special purpose, primary government according to the definition in Governmental Accounting Standards Board (GASB) Statement No. 14. While the College receives funding from local, state, and federal sources, and must comply with the spending, reporting, and record keeping requirements of these entities, it is not a component unit of any other governmental entity.

Note 2 Summary Of Significant Accounting Policies

2.A Reporting Guidelines

The significant accounting policies followed by Angelina College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community and Junior Colleges*. The College applies all applicable GASB pronouncements. The College is reported as a special-purpose government engaged in business-type activities (BTA).

2.B Tuition Discounting

Texas Public Education Grants - Certain tuition amounts must be set aside for use as scholarships by qualifying students. This set aside, called the Texas Public Education Grant (TPEG), is shown with tuition and fee revenue amounts as a separate set aside amount (Texas Education Code Chapter 56.033). When the award is used by the student for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act (HEA) Program Funds - Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts - The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amounts are recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

2.C Basis of Accounting

The financial statements of Angelina College have been prepared on the accrual basis whereby all revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay. When an expense is incurred for which both restricted and unrestricted net position is available, the College's policy is to apply restricted resources first.

2.D Budgetary Data

Each community college in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Trustees adopts the budget, which is prepared on the accrual basis of accounting, and amends the budget as needed throughout the year. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, the Legislative Budget Board, the Legislative Reference Library, and the Governor's Office of Budget and Planning by December 1.

2.E Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on-hand, demand deposits, and short-term investments with original maturities of three months or less from date of acquisition.

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense) until that time.

2.F Investments

Investments are reported at fair value on a recurring basis. Fair values are based on quoted prices (Level 1 of the fair value hierarchy). Short-term investments have a maturity of less than one year at the fiscal year end. Long-term investments have a maturity of greater than one year at the fiscal year end.

2.G Inventories

Inventories consisting of copier paper and supplies, postage, and bookstore stock are valued at the lower of cost under the "first-in, first-out" method, or market, and are charged to expense as consumed or sold.

2.H Capital Assets

Capital assets are recorded at cost at the date of acquisition. Donated capital assets are reported at acquisition value. Renovations to buildings and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are charged to operating expense in the year in which the expense is incurred.

Items costing \$5,000 or more with a useful life greater than one year are capitalized and depreciated. Additionally, these items have a permanent decal affixed to them and are inventoried annually.

Items costing less than \$5,000 but having a useful life greater than one year are expensed in the year of purchase. No separate inventory records are maintained on these items.

The College computes depreciation under the straight-line method over the estimated useful life of assets. The following lives are used:

Buildings	50 years
Building Improvements	20 years
Land Improvements	20 years
Library Books	15 years
Furniture, Machinery, Vehicles, and Other Equipment	10 years
Telecommunications and Peripheral Equipment	5 years

2.I Pensions

The College participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost sharing defined benefit pension plan with a special funding situation. The fiduciary net position of TRS has been determined on the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

2.J Other Post-Employment Benefits

The fiduciary net position of the Employees Retirement System of Texas (ERS) State Retiree Health Plan (SRHP) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits; OPEB expense; and information about assets, liabilities and additions to/deductions from SRHP's fiduciary net position. Benefit payments are recognized when due and are payable in accordance with the benefit terms.

2.K Unearned Revenues

Tuition, fees, and other revenues received and related to periods after August 31, 2025 or 2024, respectively, have been reported as unearned revenue.

2.L Deferred Inflows of Resources

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

2.M Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

2.N Operating and Non-Operating Revenue and Expense Policy

The College distinguishes operating revenues and expenses from non-operating items. The College reports as a BTA and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal ongoing operations. Principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations, ad valorem tax collections, and Title IV grant revenues. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The operation of food services is not performed by the College but is contracted to an independent vendor.

2.O Reclassifications

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

2.P Blended Component Unit - Angelina College Foundation

Using the criteria established by GASB Statement No. 14, The Financial Reporting Entity, GASB Statement No. 61, The Financial Reporting Entity: Omnibus - an amendment of GASB Statements No. 14 and No. 34, the College's management has determined that the Angelina College Foundation (Foundation) should be blended with the activities of the College. Its sole purpose is to assist the College in financing or otherwise facilitating in the acquisition of grants or contributions and because the College's management has operational responsibility for the Foundation.

The Foundation was incorporated on August 20, 2018, as a non-profit corporation formed under the Texas Public Facility Corporation Act. The Foundation was formed to assist the College in financing, refinancing, providing, or otherwise helping in the acquisition of public grants and contributions. Although the Foundation is legally separate from the College, the Foundation is reported as if it were part of the College because its sole purpose is to aid the College with the acquisition of public grants and contributions. Therefore, the Foundation is reported as a blended component unit in the Basic Financial Statements of the College. Financial information for the Foundation may be obtained from the College's Business Office.

2.Q New Pronouncements

For the year ended August 31, 2025, the College implemented the provisions of GASB 101, *Compensated Absences*. The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences under a unified model. The implementation of GASB 101 requires a retroactive restatement for all prior periods presented for the change in accounting principle:

	2024		2024

Note 3 Authorized Investments

Angelina College is authorized to invest in obligations and instruments as defined in the Public Funds Investment Act (Sec. 2256.001 Texas Government Code). Such investments include: (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute. The investments of the College comply with these investment policies.

4.B Investment Risks

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In accordance with state law and College policy for non-endowment funds, the College does not purchase any investments with maturities greater than 10 years. All College investments comply with the Public Funds Investment Act. Maturities for the College's investments that are subject to interest rate risk are as follows:

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The College's policy for reducing its exposure to credit risk is to comply with state law and the College's investment policy. Investments in money market funds and investment pools must be rated at least AAA or an equivalent rating by at least one nationally recognized rating service. Commercial paper must be rated at least A-1 or P-1. Investments in obligations from other states, municipalities, counties, etc. must be rated at least A. As of August 31, 2025 and 2024, the College's investments in U.S. Government Agencies are rated AAA/AA+ by Moody's and Standard and Poor's, respectively. As of August 31, 2025 and 2024, the College's investments in corporate bonds are rated at least BAA1/BBB+ by Moody's and Standard and Poor's, respectively. The College's investments in mutual funds are rated at least □□□□ by Morningstar, Inc. as of August 31, 2025 and 2024.

Custodial Credit Risk - Custodial credit risk is the risk that the College's deposits may not be returned in the event of a bank failure. The College's policy with respect to custodial credit risk complies with state law. At August 31, 2025 and 2024, the bank balances of the College's deposits were \$25,178,246 and \$21,426,939 respectively.

Of these balances, the amounts covered by FDIC insurance were \$ 3,089,138 and \$3,517,793 at August 31, 2025 and 2024, respectively. The remaining balances at August 31, 2025 and 2024 of \$22,089,109 and \$17,909,146 were entirely covered by pledged collateral held by the pledging financial institution's agent bank in the College's name.

Note 5 Derivative Investments

Derivatives are investment products that may be a security or contract deriving its value from another security, currency, commodity, or index, regardless of the source of funds used. Angelina College did not invest in derivative products during fiscal year 2024 or 2023.

Note 6 Endowments

The investment policy of the Board of Trustees is reviewed and adopted annually. Within that investment policy, the investment objective for the endowment fund is to preserve the real purchasing power of the principal and to provide a stable source of perpetual financial support to scholarships in accordance with the endowment spending policy. The brokerage firm or other endowment manager is also adopted annually by the Board of Trustees and is required to certify familiarity and compliance with the Public Funds Investment Act of the State of Texas, and the investment policy of the College. Endowment funds are subject to the provisions of the "Uniform Prudent Management of Institutional Funds Act" in Chapter 163 of the Texas Property Code. Endowment assets are reported at fair value on a recurring basis. Fair values are based on quoted prices (Level 1 of the fair value hierarchy).

Distributions from endowment investments are required to be spent for the purposes for which the endowment was established. Scholarship distributions are made pursuant to the investment policy. The policy for distribution of investment income designates an annual spending rate of no more than 5% as applied to a 36-month moving average of market value less current year contributions as measured at August 31 of each year. Endowment net position is classified as restricted nonexpendable student aid in the Statement of Net Position.

The College has an artwork collection that it does not capitalize. This collection adheres to the College's policy to (a) maintain it for public exhibition or education; (b) protect, keep unencumbered, care for, and preserve it; and (c) require proceeds from its sale to be used to acquire other collection items. Generally accepted accounting principles permit collections maintained in this manner to be charged to operations at time of acquisition rather than capitalized.

TOTAL	\$ 278,366	\$ 19,310	\$ 259,046	

On December 14, 2023 the college entered into an agreement with a company to optimize the college's cooling and heating system. The total fee for the project was \$1,391,590 paid over 32 quarterly payments. The payment due is equal to the greater of 80% of the energy savings resulting from optimization or the minimum payment amount of \$43,487.42. The payment schedule is as follows:

- Advance refunding of the 2009 Series Limited Tax Refunding Bonds reduced the College's debt service payments over the next 5 years by approximately \$312,750.

Note 14 Unearned Revenues

Tuition and fees of \$5,349,092 and \$5,171,429 and federal, state, and local grants of \$529,192 and \$710,393 have been reported as unearned revenues at August 31, 2025 and 2024, respectively.

Note 15 Pending Lawsuits And Claims

Various claims and lawsuits are pending against the District. In the opinion of the College administration, the potential loss on all claims and lawsuits, to the extent not provided by insurance or otherwise, will not be significant to the financial statements of the College.

Note 16 Employees' Retirement Plan

The State of Texas has joint contributory retirement plans for almost all of its employees. The College requires all full-time employees to participate either in the Teacher Retirement System of Texas (TRS) or in the Optional Retirement Plan (ORP). Faculty, administrators, and professional employees may enroll in either TRS or ORP. Secretarial, clerical, and classified employees are limited to participation in TRS. Employees who are eligible to participate in ORP have ninety days from the date of their employment to select the Optional Retirement

Program. Employees who previously had the opportunity to participate in ORP but declined must remain with TRS for the duration of their employment in the Texas education system. Contribution rates and amounts are listed for each type of contributor in Table 16-1.

16.A Teacher Retirement System of Texas (TRS)

i *Plan Description* - The College participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

ii All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

iii *Pension Plan Fiduciary Net Position* - Detailed information about TRS's fiduciary net position is available in a separately-issued Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at: <http://www.trs.state.tx.us/about/documents/cafr.pdf#cafr>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

iv *Benefits Provided* - TRS provides service and disability retirement, as well as death and survivor benefits, to eligible members (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity (except for employees who are grandfathered, where the three highest annual salaries are used). The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

v Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Table 16-1 TRS Contribution Rates and Amounts		
	Contribution Rates	
	2024	2025
Member	8.25%	8.25%
Non-Employer Contributing Entity	8.25%	8.25%
Employers	8.25%	8.25%
Employer Contributions – 2025	\$ 601,269	
Member Contributions – 2025	\$ 1,007,478	
NECE On-behalf Contributions – 2024	\$ 374,614	

The College's contributions to the TRS pension plan in FY25 were \$601,269 as reported in the Schedule of the College's Contributions for pensions in the Required Supplementary Information section of these financial statements. Estimated state of Texas on-behalf contributions for FY25 were \$374,614.

- As the non-employer contributing entity for public education and junior colleges, the state of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

ANGELINA COLLEGE
NOTES TO FINANCIAL STATEMENTS

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.
- In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.
- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

16.B Actuarial Assumptions

The total pension liability in the August 31, 2024 actuarial valuation was determined using the following actuarial assumptions:

Table 16-2 TRS Changes in Actuarial Assumptions	
Valuation Date	August 31, 2023 rolled forward to August 31, 2024 Actuarial Cost Method
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Fair Value
Single Discount Rate	7.00%
Long-term Expected Investment Rate of Return	7.00%
Inflation	2.30%
Salary Increases	2.95% to 8.95% including inflation
Benefit Changes During the Year	None
Ad Hoc Post-Employment Benefit Changes	None

16.C Discount Rate:

The discount rate used to measure the total pension liability was 7.00 percent. The single discount rate was based on the expected rate of return on pension plan investments of 7.00 percent and a municipal bond rate of 3.87 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2069, and the municipal bond rate was applied to all benefit payments after that date. The long-term rate of return on pension plan investments is 7.00 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS' target asset allocation as of August 31, 2024, are summarized below:

16.D Discount Rate Sensitivity Analysis

The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.00%) in measuring the Net Pension Liability.

16.E Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2025, the College reported a liability of \$6,199,055 for its proportionate share of TRS's net pension liability. This liability reflects a reduction for State pension support provided to the College. The amount recognized by the College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the College were as follows:

Table 16-5 TRS Net Pension Liability	
College's proportionate share of the collective net pension liability	\$ 6,199,055
State's proportionate share that is associated with the District	\$ 4,060,611
TOTAL	\$ 10,259,666

The net pension liability was measured as of August 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The College's proportion of the net pension liability was based on the College's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2023 through August 31, 2024.

At August 31, 2024, the College's proportion of the collective net pension liability was 0.0101%, which was a change of 0.00014% from its proportion measured as of August 31, 2023.

ANGELINA COLLEGE
NOTES TO FINANCIAL STATEMENTS

Changes Since the Prior Actuarial Valuation - There were no changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2025, the College recognized pension expense of \$485,311 and revenue of \$485,311 for support provided by the State.

At August 31, 2025, the College reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

16.F Optional Retirement Program (ORP)

Plan Description - Participation in the Optional Retirement Program, a defined contribution plan, is in lieu of participation in the Teacher Retirement System of Texas. The optional retirement program provides for the purchase of annuity contracts or mutual funds from a variety of providers who administer the plans for employees. The program operates under the provisions of the Texas Constitution, Article XVI, Sec 67, and the Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas Legislature. The percentages of participant salaries currently contributed by the state and each participant are (3.30 percent) and (6.65 percent), respectively. The College contributes 5.20 percent for employees who were participating in the optional retirement program prior to September 1, 1995. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. Senate Bill (SB) 1812, 83rd Texas Legislature, Regular Session, effective September 1, 2013, limits the amount of the state's contribution to 50 percent of eligible employees in the reporting district. The retirement expense to the state for the college was \$103,321 and \$113,170 for the fiscal years ended August 31, 2024 and 2023, respectively. This amount represents the portion of expended appropriations made by the Legislature on behalf of the College. The total payroll for all College employees was \$17,015,175 and \$16,357,421 for fiscal years 2024 and 2023, respectively. The total payroll of employees covered by the TRS was \$11,915,290 and \$10,989,815 and the total payroll of employees covered by the Optional Retirement Program was \$3,787,407 and \$3,972,960 for fiscal years 2024 and 2023, respectively.

Note 17 Compensable Absences

Full-time employees earn annual leave from 5.83 to 16.67 hours per month depending on whether they have less than or more than five years continuous employment with the College. The College's policy is that an employee may carry their accrued leave forward from one fiscal year to another fiscal year with a maximum number 300 hours. Employees with at least six months of service who terminate their employment are entitled to payment for all accumulated annual leave up to the maximum allowed. During the fiscal year, the college implemented GASB 101 which changes how compensable absences should be accounted for. The effect of the adjustments is shown in the table below.

ANGELINA COLLEGE
NOTES TO FINANCIAL STATEMENTS

Table 17-1 Compensable Absences Adjustment

Accrued Compensable Absences as Adjusted	<u>\$ 617,178</u>	<u>\$ 8,291,465</u>	<u>\$ 875,123</u>

The College recognized the accrued liability for the unpaid annual leave in the amounts of \$923,583 and \$875,123 for fiscal years ended August 31, 2025 and 2024 as restated, respectively. The liability is shown in the Statement of Net Position split between current and noncurrent in the amounts of \$460,419 and \$463,164 respectively for August 31, 2025 and \$375,239 and \$499,884, respectively for August 31, 2024, as restated.

Sick leave, which can be accumulated to a maximum of 90 days, is earned at the rate of one day per month per length of the contract. It is paid to an employee who misses work because of personal or immediate family illness. The College's policy is to recognize the cost of sick leave when paid and sick leave is not paid out upon employee separation. The liability shown in the financial statements uses an average of several years' average sick leave accrual and usage for an estimate of current sick leave use for the fiscal year.

Note 18 Contract and Grant Awards

Contract and grant awards are accounted for in accordance with the requirements of the American Institute of Certified Public Accountants (AICPA audit and accounting guide, State and Local Governments, 8.99). For federal contract and grant awards, funds expended but not collected are reported as Federal Receivables on Exhibit 1. Non-federal contract and grant awards for which funds are expended but not collected are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded, and for which the institution has not yet performed services, are not included in the financial statements. Contract and grant awards funds already committed, e.g., multi-year awards, or funds awarded during fiscal years 2025 and 2024 for which monies have not been received nor funds expended \$1,558,009 totaled and \$5,289,338. Of these amounts, \$803,731 and \$3,914,434 were from federal contract and grant awards; \$335,076 and \$831,290 were from state contract and grant awards; and \$419,202 and \$360,800 from private contract and grant awards for the fiscal years ended 2025 and 2024, respectively.

The College's ad valorem property tax is levied each October 1st on the assessed value listed as of the prior January 1st for all real and business personal property located in Angelina County. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the following year in which imposed.

Tax revenue for the current and previous fiscal year are listed in Table 22-2 and Table 22-3, respectively. Taxes levied for the year ended August 31, 2024 were \$10,428,149 (which includes any penalty and interest assessed if applicable).

Tax collections for the year ended August 31, 2025 and 2024 were 87% of the current tax levy. Allowance for uncollectible taxes is based upon historical experience in collecting property taxes. The use of tax proceeds is restricted for the use of maintenance and/or general obligation debt service.

The College participated in multiple agreements during fiscal years 2025 and 2024, which resulted in abatements of tax revenues. Total tax revenues forgone by the College under these tax abatement agreements were \$189,762 and \$207,012 for the years ended August 31, 2025 and 2024, respectively, which amounted to approximately 1.77% and 2.04% of total tax revenues collected by the College in each fiscal year. The College has concluded that the dollar amounts of these tax abatements are immaterial to the revenues and the financial statements of the College taken as a whole. As such, we have elected not to present a full disclosure as required by GASB Statement No. 77, Tax Abatements since the GASB states that the provisions of Statement No. 77 need not be applied to immaterial items.

Note 23 Income Taxes

The College is exempt from income taxes under Internal Revenue Code § 115 *Income of States, Municipalities, Etc.* although unrelated business income may be subject to income taxes under Internal Revenue Code § 511(a)(2)(B), *Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations*. The College had no unrelated business income tax liability for the year ended August 31, 2025 and 2024.

Note 24 Risk Management

24.A Auto, Liability, and/or Property Programs

During the year ended August 31, 2025, Angelina College participated in the following TASB Risk Management Fund (the Fund) programs:

- Auto Liability
- Auto Physical Damage
- Legal Liability
- Privacy & Information Security
- Property

The Fund was created and is operated under the provision of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund purchases stop-loss coverage for protection against catastrophic and larger than anticipated claims for its Auto, Liability and Property programs. The terms and limits of the stop-loss program vary by line of coverage. The Fund uses the services of an independent actuary to determine the adequacy of reserves and fully funds those reserves. For the year ended August 31, 2025, the Fund anticipates that Angelina College has no additional liability beyond the contractual obligations for payment of contributions.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31st. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2024, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

24.B Unemployment Compensation Pool

During the year ended August 31, 2025, Angelina College provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore, there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2025, the Fund anticipates that Angelina College has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2024, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

Note 25 Non-Monetary Transactions

The College provides the use of some of its facilities to an unrelated nonprofit entity at no cost. Included in operating expenses is \$120,126 and \$120,126 in non-monetary transactions representing the value of the donation of the facilities for the years ended August 31, 2025 and 2024, respectively. A corresponding amount is also included in non-operating revenues.

Note 26 Defined Other Post-Employment Benefit Plans

26.A Plan Description

The College participates in a cost-sharing, multiple-employer, other postemployment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

26.B OPEB Plan Fiduciary Net Position

Detailed information about the GBP's fiduciary net position is available in the separately issued ERS Annual Financial Report (AFR) that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at <https://ers.texas.gov/AboutERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management>; or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877) 275-4377.

26.C Benefits Provided

Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

26.D Contributions

Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds.

Table 26-1 summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

Many of the actuarial assumptions used in this valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2014 for higher education members.

Investment Policy. The State Retiree Health Plan is a pay-as-you-go plan and does not accumulate funds in advance of retirement. The System's Board of Trustees adopted the amendment to the investment policy in May 2020 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 3.87%.

26.G Discount Rate

Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate used to determine the total OPEB liability as of the beginning of the measurement year was 3.81%. The discount rate used to measure the total OPEB liability as of the end of the measurement year was 3.87%, which amounted to an increase of 0.06%. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp's AA rating. Projected cash flows in to the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

26.H Discount Rate Sensitivity Analysis

Table 26-4 shows the impact of the Net OPEB Liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (3.81%) in measuring the Net OPEB Liability.

Table 26-4 Net OPEB Liability Sensitivity to Discount Rate

District's proportionate share of the net OPEB liability	\$ 22,743,631	\$ 19,547,502	\$ 16,982,572

26.I Healthcare Trend Rate Sensitivity Analysis

The initial healthcare trend rate is 5.6% for HealthSelect and 36.00% for HealthSelect Medicare Advantage and the ultimate rate is 4.30% for both. The following schedule shows the impact on the College's proportionate share of the collective net OPEB Liability if the healthcare cost trend rate used was 1 percent less than and 1 percent greater than the healthcare cost trend rate that was used (5.60%) in measuring the net OPEB liability.

Table 26-5 Net OPEB Liability Sensitivity to Healthcare Trend Rate			
	1% Decrease in Healthcare Trend Rate (4.60%)	Current Single Healthcare Trend Rate (5.60)%	1% Increase in Healthcare Trend Rate (6.60%)
District's proportionate share of the net OPEB liability	\$ 16,722,740	\$ 19,547,502	\$ 23,084,575

26.J OPEB Liability, Expense, Deferred Inflows and Deferred Outflows

At August 31, 2025, the College reported a liability of \$19,547,502 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the College. The amount recognized by the College as its proportionate share of the Net OPEB Liability, the related State support, and the total portion of the Net OPEB Liability that was associated with the College were as shown in Table 26-6.

Table 26-6 Proportionate Share of OPEB Liability	
District's proportionate share of the collective net OPEB liability	\$ 19,547,502
State's proportionate share that is associated with the District	\$ 14,991,909
TOTAL	\$ 34,539,411

The Net OPEB Liability was measured as of August 31, 2024 and the Total OPEB Liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of that date. The College's proportion of the Net OPEB Liability was based on the College's contributions to the OPEB plan relative to the contributions of all other employers to the plan for the period September 1, 2023 thru August 31, 2024.

At August 31, 2024 the College's proportion of the collective Net OPEB Liability was 0.06670229%, which was 0.0038% higher than the same proportion measured as of August 31, 2023.

For the year ended August 31, 2025, the College recognized OPEB expense of \$72,641 and revenue of \$72,641 for support provided by the State. The College also recognized their proportionate share of OPEB expense of \$(17,732).

26.K Changes Since the Prior Valuation

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- i The percentage of current retirees and their spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and their spouses who will elect to participate in the plan at the earliest date at which coverage can commence.
- ii Proportion of future retirees assumed to cover dependent children.
- iii The proportion of future retirees assumed to elect health coverage at retirement and proportion of future retirees expected to receive the Opt-Out Credit at retirement.
- iv Assumed Per Capita Health Benefit Costs and Health Benefit Cost and Retiree Contribution trends have been updated since the previous valuation to reflect recent health plan experience and its effects on our short term expectations.
- v The Patient-Centered Outcomes Research Institute fee payable under the Affordable Care Act and the rate of future increases in the fee have been updated to reflect recent plan experience and expected trends. The discount rate was changed from 3.81% as of August 31, 2023 to 3.87% as of August 31, 2024 as a result of requirements by GASB No. 74 to utilize the yield or index rate for 20-year, tax exempt general obligation municipal bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

At August 31, 2024, the College reported its proportionate share of the GBP's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits as shown in Table 26-7. The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense each year as shown in Table 26-8.

Defined Benefit OPEB Plan

1.A Changes in Plan Provisions

Under Q/A #4.107 of GASB's Implementation Guide No. 2017-2, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans, any plan changes that have been announced to plan members by the plan's fiscal year-end must be included in the valuation even if such plan changes do not affect plan benefits until a future period. Accordingly, this valuation reflects the minor benefit changes that became effective September 1, 2024, since these changes were announced to plan members in advance of August 31, 2024. These minor benefit changes, which are not expected to have a significant impact on plan costs for FY2025, are provided for in the FY2025 Assumed Per Capita Health Benefit Costs.

1.B Changes in Assumptions

Demographic Assumptions

Since the last valuation was prepared for this plan, the following assumptions have been updated to reflect recent plan experience and expected trends:

- Percentage of current retirees and retiree spouses not yet eligible to participate in the HealthSelect Medicare Advantage Plan and future retirees and retiree spouses who will elect to participate in the plan at the earliest date at which coverage can commence.
- Proportion of future retirees assumed to be married and electing coverage for their spouse.
- Proportion of future retirees assumed to elect health coverage at retirement and proportion of future retirees expected to receive the Opt-Out Credit at retirement.
- Demographic assumptions, including the mortality projection scale for all State Agency members; base mortality for judges; assumed rates of retirement for certain members who are Regular Class, Elected Class or Certified Peace Officers/Custodial Officers (CPO/CO); assumed rates of termination for certain members who are Regular Class, Judges or Certified Peace Officers/Custodial Officers (CPO/CO); and assumed rates of disability for all State Agency Members.

1.C Economic Assumptions

The expenses directly related to the payment of GBP health benefits for (a) HealthSelect medical services and (b) prescription drug benefits under HealthSelect and HealthSelect Medicare Advantage have been updated since the previous valuation to reflect recent new administrative services contracts.

Assumed Per Capita Health Benefit Costs and Health Benefit Cost and Retiree Contribution trends have been updated since the previous valuation to reflect recent health plan experience and its effects on our short-term expectations.

The Patient-Centered Outcomes Research Institute fee payable under the Affordable Care Act and the rate of future increases in the fee have been updated to reflect the most recent available information.

1.D Other Inputs

The discount rate was changed from 3.81% to 3.87% as a result of requirements by GASB No. 74 to reflect the yield or index rate for 20-year, tax-exempt general obligation bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

The change in the discount rate was made to comport with the requirements of GASB No. 74. Please see the ERS valuation report dated November 27, 2023 for a complete list of previous assumptions.

Minor benefit revisions have been adopted since the prior valuation. These changes, which are not expected to have a significant impact on plan costs for FY2025, are provided for in the FY2025 Assumed Per Capita Health Benefit Costs.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Angelina County Junior College
Lufkin, Texas

Members of the Board of Trustees:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of Angelina County Junior College District (the "College") as of and for the year ended August 31, 2025, and the related notes to the financial statements, which collectively comprise the basic financial statements and have issued our report thereon dated December 29, 2025.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Governmental Auditing Standards.

Public Funds Investment Act Compliance

We performed tests designed to verify Angelina County Junior College District's compliance with the Public Funds Investment Act. The results of our tests disclosed no instances of noncompliance with the Public Funds Investment Act.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Conclusion

This report is intended for the information and use of management, the audit committee, Board of Trustees, others within the entity, the Texas Higher Education Coordinating Board, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM
AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM
GUIDANCE AND THE STATE OF TEXAS SINGLE AUDIT CIRCULAR**

Board of Trustees
Angelina County Junior College
Lufkin, Texas

Members of the Board of Trustees:

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited Angelina County Junior College, Inc.'s compliance with the types of compliance requirements described in the *OMB Compliance Supplement* and the State of Texas Single Audit Circular, Uniform Grant Management Standards which could have a direct and material effect on each of Angelina County Junior College, Inc.'s major federal and state programs for the year ended August 31, 2025. Angelina County Junior College, Inc.'s major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, Angelina County Junior College, Inc., complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended August 31, 2025.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and the State of Texas Single Audit Circular, issued by the Comptroller General of the United States. Our responsibilities under those standards, the Uniform Guidance and State of Texas Circular are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of Angelina County Junior College and to meet our other ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of the college and the foundation's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to Angelina County Junior College, Inc.'s federal and state programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on Angelina County Junior College, Inc.'s compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance, and State Single Audit Circular will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about Angelina County Junior College, Inc.'s compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, Uniform Guidance, and the Texas State Single Audit Circular, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding Angelina County Junior College, Inc.'s compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of Angelina County Junior College, Inc.'s internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and Texas State Single Audit Circular, but not for the purpose of expressing an opinion on the effectiveness of Angelina County Junior College, Inc.'s internal control over compliance. Accordingly, no such opinion is expressed.

Report on Internal Control over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and the Texas State Single Audit Circular. Accordingly, this report is not suitable for any other purpose.

Conclusion

This report is intended for the information and use of management, the audit committee, Board of Trustees, others within the entity, the Texas Higher Education Coordinating Board, federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

NOTE 2: SIGNIFICANT ACCOUNTING POLICIES USED IN PREPARING THE SCHEDULE

The expenditures included in the schedule are reported for the College's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represent funds that have been expended by the College for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. The College has followed all applicable guidelines issued by various entities in the preparation of the schedule. Since the College has an agency approved Indirect Recovery Rate, it has elected not to use the 10% de minimis cost rate as permitted in the UG, section 200.414.

NOTE 3: EXPENDITURES NOT SUBJECT TO FEDERAL SINGLE AUDIT

N/A

NOTE 4: STUDENT LOANS PROCESSED AND ADMINISTRATIVE COSTS RECOVERED
